KAFFIRS FIGHT BOERS

Natives Occupied Strongly Fortified Ridge.

BURGHERS CARRIED POSITION.

Lost Three Killed and Five Wounded. Boers Reported Attack by British on Fort Near Mafeking, With 55 English Loss—Other War News.

PRETORIA, Tuesday, Dec. 26, by way of Lourenzo Marques, Thursday, Dec. 28.—Commandant Swart reports from the laager at Alowyns kop, near Zerkust, that he had an engagement on Friday, Dec. 23, with Kaffirs in the neighborhood of Dordorpoort. The Kaffirs occupied a strongly fortified ridge and were well prepared for emergencies.

After heavy fighting the Burghers captured the Kafir position, losing three killed and five wounded.

PRETORIA, Tuesday, Dec. 26, by way of Lourenzo Marques, Thursday, Dec. 28.—Commandant Snyman reports as follows from Molopo:

"On Monday morning the enemy from Mafeking, attacked one of our forts in force, with cannon, Maxim, an armored train, and so persistently that there was fighting right on the walls of the fort. But we have retained our fort. The British loss is reported as 55."

The other commandoes report "all quiet" with the exception of the usual bombardment of Ladysmith.

General Lucas Meyer has recovered and returned to the front.

LONDON, Dec. 30.—The Marseilles correspondent of the Daily Mail telegraphed the substance of an interview with the Russian General Gourko, eldest son of the famous Gourko, who was about to start for Pretoria, who said in part:

"I have been offered the command of a Boer army corps. In my own mind I am absolutely confident of the success of the Boers. You may take my word for it that thousands of Russians are now fighting under General Dourbet."

The text of Colonel Baden-Powell's proclamation to the Burghers besieging Mafeking, the gist of which has already been cabled, came from Lourenzo Marques. After asserting that the republics cannot hope for foreign intervention, and pretending to relate the exact attitude of all the European powers, including Emperor William who, the colonel said, "truly sympathizes with England," Baden-Powell made the extraordinary statement that "the American government has warned the others of her intention to side with England should any of them interfere."

Advices from Cape Town, dated Dec. 24, said an investigation showed that the reported disaffection among the Dutch in the Victoria West district had been overdrawn. The farmers, it was pointed out, were mostly landowners and would not risk the loss of their farms by rising.

A dispatch from Lourenzo Marques, dated Dec. 23, said a curious story was current, emanating from Boer sources, that Matt Steyn, brother of the president of the Orange Free State, and 300 Free Staters had definitely refused to continue the war. Matt Steyn, acting as spokesman of the party, was reported to have told the president that he was only authorized to intervene in the interest of peace, and that the Burghers did not feel they were bound by his "unwarrantable conduct," especially as they ran the risk of the confiscation of their property, and they simply desired to be permitted to farm in peace and proposed to immediately return to their farms.

PIETERMARITZBURG, Wednesday, Dec. 27.—A dispatch from Ladysmith, dated Dec. 22, said:

"The Boers have mounted another howitzer on Surprise hill, replacing the gun captured in the sortie of the rifle brigade. While they watch us nightly with a searchlight and bombard the place daily they show no signs of assaulting the town. They probably think they can starve us out, but we have plenty of provisions."

"The total casualties since the siege began are 70 men killed and 233 wounded."

PRETORIA, Dec. 25—Monday.—General Schalk Burger reported, under date of Dec. 23, that trains were running to Colenso, indicating that the Boers had built a connection around Ladysmith.

General Cronje reported from the Modder river, Dec. 24, that the Boers captured two British forts at Kuruman, Dec. 17.

It was rumored that General Methuen's big naval gun had exploded.

LONDON, Dec. 30.—A war office dispatch from Colonel Baden-Powell, dated Dec. 12, after announcing that Lady Sarah Wilson had arrived safe and well at Mafeking, added that the bombardment and musketry fire continued daily on all sides and that the health and spirits of the garrison were very satisfactory.

KIMBERLEY, Friday, Dec. 23, via Modder river, Wednesday, Dec. 27.—Before noon today a detachment of the mounted forces, with artillery and light infantry, moved out in a westerly direction. Boer artillery from Kamperdam opened fire at Otterskopje, Kimberley fort replying with twenty shells.

The British force reconnoitered outposts along Lazaretto ridge, the Boer patrols retreating.

Having accomplished this and having discovered Boer reinforcements approaching from Wimbledon ridge, Colonel Chamberlain with the Royal artillery, exchanged a dozen shells as soon as the guns could be numbered up. Some 500 Boers poured in a heavy fire from their earthworks, the British finally retiring with the loss of one horse.

The movement showed that the Boers were still keeping their guns in the vicinity of Kimberley and were able to sustain reinforcements rapidly. It also showed their proneness to vacate a position immediately when weaker than the opposing force.

LADYSMITH, Dec. 24, via Pietermaritzburg.—General White has had a slight attack of fever, but he is now convalescent.

The Boer shell fire has been very damaging recently. On Friday one shell killed six men and wounded nine. The same missile killed 14 horses. Another just missed the Fifth Lanciers' lines, slightly wounding six officers. Several shells have fallen close to General White's house, compelling the removal of headquarters to another point.

LONDON, Dec. 30.—The Times publishes the following dispatch from Chieveley camp, dated Dec. 23:

"Parties of Boers approached today within three miles of Chieveley camp, threatening our watering parties, who are compelled to go some two miles owing to the scarcity of water."

"It is reported that the Ladysmith garrison made a sortie on Thursday and captured a hill."

CAPE TOWN, Dec. 30.—A dispatch from Craddock reported heavy firing in the direction of Stormberg. It was supposed this was connected with General Gatacre's attempt to reopen communication with the Indwe collieries.

LONDON, Dec. 30.—A dispatch received by the war office dated Cape Town Dec. 28 said there was no change in the situation so far as Generals Gatacre and French are concerned.

The war office received a dispatch from Cape Town, dated Dec. 28, containing the following: "The Indwe colliery line is now working again."

MORGAN PEOPLE CONTROL.

Secured Upper Hand In Hocking and Sunday Creek Valleys Coal Situation.

COLUMBUS, Dec. 30.—A telephone message from New York gave information on the Toledo and Ohio Central-Hocking Valley deal and set at rest all question that the Morgan interests have secured control of the coal situation in the Hocking and Sunday Creek valleys.

The message, which is from one of the high officials in the deal, gave the election of officers for the Toledo and Ohio Central and the Kanawha and Michigan railroads, control of which has just been secured.

Decatur Axtell was chosen president of the Toledo and Ohio Central, N. Monsarratt first vice president and Cass C. Hickox second vice president. N. Monsarratt, president of the Hocking Valley railroad, was chosen president of the Kanawha and Michigan, Decatur Axtell first vice president and Ralph W. Hickox second vice president.

Some time next week it is expected that the newly-elected officers will go over the Toledo and Ohio Central on an inspection tour.

To Help the Boers.

PHILADELPHIA, Dec. 30.—Over 400 delegates representing 90 divisions of the Ancient Order of Hibernians of Philadelphia, with a total membership of 20,000, held a secret meeting in industrial hall for the purpose of taking some action with a view to helping the Boers in their war with Great Britain. It was said that delegates would be assessed \$2.50 apiece to send hospital ship to Boers.

TO PROTECT LIBERIA

Probable Mission of Cruiser Montgomery.

ALSO TO LOCATE COALING STATION

Asserted in London That the United States and Great Britain May Ask France to Define the Boundary—Bradford Urged Coaling Stations.

LONDON, Dec. 30.—It was learned that the United States cruiser Montgomery's visit to Liberia was apparently the result of overtures made to Washington by that republic. Though the British government was said to be in ignorance of the purpose of the Montgomery's mission, the establishment of a coaling station in Liberia by the United States was regarded as scarcely probable, as, it is asserted, no Liberian port has any facilities for coaling, all of them being open and surrounded.

The Associated Press representative learned, however, that a far more important step was under consideration. It consisted in a joint request of the United States and Great Britain upon France to define the boundary between the territory she claims and that claimed by Liberia. This step was not yet decided upon, but Great Britain

THE NEWS REVIEW

Won very earnest commendation from National, State and County Republican Headquarters for services rendered the Grand Old Party during the late political battle in Ohio.

The NEWS REVIEW stands in line with Republicanism, the Workingmen of the Nation and Good Government. We fling our flag to the breeze and proclaim our principles. only awaited the United States assent to become a party to such a request.

It was alleged that France, for many years, has been encroaching on Liberia and it was only by a strenuous protest of the United States that she was prevented from appropriating a large slice of Liberia in 1892.

According to the Hon. Arthur Ponsonby, managing director of the Liberia rubber syndicate, which recently guaranteed the interest of Liberia's public debt, the Montgomery's visit was probably prompted by a desire to ascertain the extent of French activity. Mr. Ponsonby said in part:

"Bishop Hartzell, while in Monrovia this year, strongly urged the government to interest the United States in preserving the boundaries, with the result that Liberia appointed a mission to Washington. I believe it has already made representations, and presume the commander of the Montgomery investigated both this and the possibility of a coaling station."

WASHINGTON, Dec. 30.—As to the real objects of the Montgomery's cruise, it was believed that the navy department had its eye upon a possible coaling station on the west coast. Before and during the civil war the United States had no less than three coaling stations on that coast. They were practically abandoned when the West African station was dropped from the list, but the chief of the equipment bureau. Admiral

Bradford, has strongly urged that they be re-established, so as to insure our naval vessels a source of coal supply when passing from the eastern Atlantic states around to the Philippines and China, in the event that the Suez canal should be closed against them. The Listerian government always has been willing, and even anxious, that the station on its coast should be kept up, it only as a manifestation of the interest of the United States in the colony it created, and to protect it by our moral influence against European aggression.

DEATH OF FATHER MALONE.

He Was a Staunch Unionist During the War of the Rebellion.

NEW YORK, Dec. 30.—Rev. Sylvester Malone, pastor of the Roman Catholic church of Saints Peter and Paul, Brooklyn, and a member of the board of regents of the University of New York, died, aged 79 years. He had been in failing health for some time past and took to his bed about three weeks ago.

In 1854 Father Malone visited Europe, and while there witnessed the council of bishops which Pius IX convened at Rome for the purpose of proclaiming the dogma of the immaculate conception. While he was absent a mob, stirred by the political and religious passions which then fermented Williamsburg, attacked his church and would have burned it but for the prompt interference of the authorities. At the beginning of the Civil war Father Malone hoisted a Union flag on his church spire and there it remained until it was taken down in order that it might be carried to the front by Williamsburg men. It was replaced by another flag which the citizens presented. All through the war he labored ardently in behalf of the Union cause, contributing generously both in money and exertion.

MAY NEVER BE SAME MENTALLY.

But the Physician Said Boutelle Might Recover Health.

BOSTON, Dec. 30.—To those who inquired after the condition of Congressman Boutelle at the McLean asylum, the reply was that he was getting along nicely and was improving in strength.

Dr. Daniel A. Robinson, the physician who came from Bangor to attend him after he was stricken at Young's hotel said that while the congressman may recover his physical health and vigor, it is possible that he may never be the same again mentally.

Crocker's Nephew Promoted.

NEW YORK, Dec. 30.—Fire Commissioner Scannell promoted Deputy Chief Edward F. Crocker to be chief of the New York city fire department at a salary of \$6,000 a year. The commissioner received the certified list of the civil service showing that Mr. Crocker had a percentage of 97.30. The new chief is a nephew of Richard Crocker.

LOCK HAVEN, Pa., Dec. 30.—Grant Baehurst, assistant postmaster at Otis, this county, was killed and two other persons were injured by an accidental explosion of dynamite in the weighmaster's office of the Bellefonte Limestone company at Salona, eight miles from this city.

William J. Mahoney Dead.

BOSTON, Dec. 30.—William J. Mahoney, well known to sporting men as a promoter of boxing, died, aged 40 years.

TERRORIZED AMIGOS

Rebels Abused Friendly Filipinos and Chinamen.

WHITSELL GOT TRACK OF ENEMY.

He Was Unable, However, to Bring on an Engagement—Colonel Hare, Following a Party of American Prisoners, Lost Track of Them.

MANILA, Dec. 30.—The insurgents who evacuated the coast towns between Dagupan and Vigan, fleeing to the mountains before the advancing Americans, returned in small bands to the towns the Americans do not occupy, terrorizing the natives and Chinamen who showed friendship for the Americans. The natives and Chinamen sought the protection of the American garrisons.

Colonel Whitsell's cavalry, while scouting in the vicinity of Trinidad, found evidence of Filipino soldiers being in that vicinity, but it was impossible to bring about an engagement.

The recent increase in the garrison of Nampacan, against a threatened rebel attack on Christmas day, averted trouble.

Colonel Luther R. Hare of the Thirty-third infantry, who had been following a party of American prisoners, lost track for about three days, Dec. 20, of such signs and evidences of their passage that they customarily left behind them. It was thought the prisoners were separated and conveyed to remote parts of the mountains. This probably increased the difficulties of General Young's troops to effect a rescue.

General Wheeler, who was recently in Manila requesting an appointment south in the line of the expected campaign, was at Panique.

WASHINGTON, Dec. 30.—The adjutant general received a cable message from General Otis containing the following:

"MANILA, Dec. 29, Adjutant General War Department, Washington:

"Colonel Lockett with regiment, two battalions Forty-sixth (Colonel Schuyler); one Forty-fifth (Colonel Dorst) and company Twenty-seventh infantry, two guns, Captain Van Duesen, attacked enemy 600 strong on mountain stronghold beyond Montalban, northeast San Mateo. Large number killed and wounded; 24 taken prisoners. Lockett captured one cannon, 40 rifles, 20,000 rounds ammunition, 500 pounds powder, arsenal fortifications, all food supplies, and considerable other property. This captured point located on mountain trail and formerly supposed to be impregnable. Our casualties Lieutenant Enslow, Eleventh cavalry, and five enlisted men wounded, mostly slight. Private Matson, Forty-fifth infantry, drowned. Otis."

ONE KILLED IN A WRECK.

A Heroic Brakeman Cut Off His Own Leg to Get Free.

DENVER, Dec. 30.—The Cheyenne flyer on the Union Pacific railroad crashed into the Boulder valley train at Brighton, Colo. One man was killed and eleven persons injured. William Rundleman, baggageman on the Cheyenne train, was killed.

Fred Lewis, brakeman on the Boulder valley train, was making a coupling when the collision occurred. He was thrown down and a wheel ran upon his leg, pinning him down. His cries for help were not heard, and he drew a knife from his pocket, cut off his leg and crawled from under the car. His recovery is doubtful.

Must Not Recruit For Boers.

CINCINNATI, Dec. 30.—Monsieur Pierot was arraigned before United States Attorney W. E. Bundy on a charge of violating the laws of neutrality. M. Pierot has been known as a recruiting officer here for the Boers for some time. Monsieur Pierot said he did not enlist the men. He simply looked at them and sent them to Oom Paul's nephew, Von Altow, who is in Cincinnati. Colonel Bundy, however, warned Monsieur Pierot and read to him the law.

TWO CENTS

KAFFIRS FIGHT BOERS

Natives Occupied Strongly Fortified Ridge.

BURGHERS CARRIED POSITION.

Lost Three Killed and Five Wounded. Boers Reported Attack by British on Fort Near Mafeking, With 55 English Loss—Other War News.

PRETORIA, Tuesday, Dec. 26, by way of Lourenzo Marques, Thursday, Dec. 28.—Commandant Swart reports from the laager at Alowyns kop, near Zerkust, that he had an engagement on Friday, Dec. 22, with Kaffirs in the neighborhood of Dordorpoot. The Kaffirs occupied a strongly fortified ridge and were well prepared for emergencies.

After heavy fighting the Burghers captured the Kafir position, losing three killed and five wounded.

PRETORIA, Tuesday, Dec. 26, by way of Lourenzo Marques, Thursday, Dec. 28.—Commandant Snyman reports as follows from Molopo:

"On Monday morning the enemy from Mafeking attacked one of our forts in force, with cannon, Maxim, an armored train, and so persistently that there was fighting right on the walls of the fort. But we have retained our fort. The British loss is reported as 55."

The other commandoes report "all quiet" with the exception of the usual bombardment of Ladysmith.

General Lucas Meyer has recovered and returned to the front.

LONDON, Dec. 30.—The Marseilles correspondent of the Daily Mail telegraphed the substance of an interview with the Russian General Gourko, eldest son of the famous Gourko, who was about to start for Pretoria, who said in part:

"I have been offered the command of a Boer army corps. In my own mind I am absolutely confident of the success of the Boers. You may take my word for it that thousands of Russians are now fighting under General Joubert."

The text of Colonel Baden-Powell's proclamation to the Burghers besieging Mafeking, the gist of which has already been cabled, came from Lourenzo Marques. After asserting that the republicans cannot hope for foreign intervention, and pretending to relate the exact attitude of all the European powers, including Emperor William who, the colonel said, "fully sympathizes with England," Baden Powell made the extraordinary statement that "the American government has warned the others of her intention to side with England should any of them interfere."

Advices from Cape Town, dated Dec. 24, said an investigation showed that the reported disaffection among the Dutch in the Victoria West district had been overdrawn. The farmers, it was pointed out, were mostly landowners and would not risk the loss of their farms by rising.

A dispatch from Lourenzo Marques, dated Dec. 23, said a curious story was current, emanating from Boer sources, that Matt Steyn, brother of the president of the Orange Free State, and 300 Free Staters had definitely refused to continue the war. Matt Steyn, acting as spokesman of the party, was reported to have told the president that he was only authorized to intervene in the interest of peace, and that the Burghers did not feel they were bound by his "unwarrantable conduct," especially as they ran the risk of the confiscation of their property, and they simply desired to be permitted to farm in peace and proposed to immediately return to their farms.

PIETERMARITZBURG, Wednesday, Dec. 27.—A dispatch from Ladysmith, dated Dec. 22, said:

"The Boers have mounted another howitzer on Surprise hill, replacing the gun captured in the sortie of the rifle brigade. While they watch us nightly with a searchlight and bombard the place daily they show no signs of assaulting the town. They probably think they can starve us out, but we have plenty of provisions."

"The total casualties since the siege began are 70 men killed and 235 wounded."

PRETORIA, Dec. 25.—Monday.—General Schalk Burger reported, under date of Dec. 23, that trains were running to Colenso, indicating that the Boers had built a connection around Ladysmith.

General Cronje reported from the Modder river, Dec. 24, that the Boers captured two British forts at Kuruman, Dec. 17.

It was rumored that General Methuen's big naval gun had exploded.

LONDON, Dec. 30.—A war office dispatch from Colonel Baden-Powell, dated Dec. 12, after announcing that Lady Sarah Wilson had arrived safe and well at Mafeking, added that the bombardment and musketry fire continued daily on all sides and that the health and spirits of the garrison were very satisfactory.

KIMBERLEY, Friday, Dec. 22, via Modder river, Wednesday, Dec. 27.—Before noon today a detachment of the mounted forces, with artillery and light infantry, moved out in a westerly direction. Boer artillery from Kamperdam opened fire at Ottos Kopje, Kimberley fort replying with twenty shells.

The British force reconnoitered outposts along Lazaretto ridge, the Boer patrols retreating.

Having accomplished this and having discovered Boer reinforcements approaching from Wimbledon ridge, Colonel Chamier, with the Royal artillery, exchanged a dozen shells as soon as the guns could be numbered up. Some 500 Boers poured in a heavy fire from their earthworks, the British finally retiring with the loss of one horse.

The movement showed that the Boers were still keeping their guns in the vicinity of Kimberley and were able to summon reinforcements rapidly. It also showed their proneness to vacate a position immediately when weaker than the opposing force.

LADYSMITH, Dec. 24, via Pietermaritzburg.—General White has had a slight attack of fever, but he is now convalescent.

The Boer shell fire has been very damaging recently. On Friday one shell killed six men and wounded nine. The same missile killed 14 horses. Another just missed the Fifth Lancashire's lines, slightly wounding six officers. Several shells have fallen close to General White's house, compelling the removal of headquarters to another point.

LONDON, Dec. 30.—The Times publishes the following dispatch from Chieveley camp, dated Dec. 28:

"Parties of Boers approached today within three miles of Chieveley camp, threatening our watering parties, who are compelled to go some two miles owing to the scarcity of water."

"It is reported that the Ladysmith garrison made a sortie on Thursday and captured a hill."

CAPE TOWN, Dec. 30.—A dispatch from Cradock reported heavy firing in the direction of Stormberg. It was supposed this was connected with General Gatacre's attempt to reopen communication with the Indwe collieries.

LONDON, Dec. 30.—A dispatch received by the war office dated Cape Town Dec. 28 said there was no change in the situation so far as Generals Gatacre and French are concerned.

The war office received a dispatch from Cape Town, dated Dec. 28, containing the following: "The Indwe colliery line is now working again."

MORGAN PEOPLE CONTROL.

Secured Upper Hand In Hocking and Sunday Creek Valleys Coal Situation.

COLUMBUS, Dec. 30.—A telephone message from New York gave information on the Toledo and Ohio Central-Hocking Valley deal and set at rest all question that the Morgan interests have secured control of the coal situation in the Hocking and Sunday Creek valleys.

The message, which is from one of the high officials in the deal, gave the election of officers for the Toledo and Ohio Central and the Kanawha and Michigan railroads, control of which has just been secured.

Decatur Axtell was chosen president of the Toledo and Ohio Central, N. Monsarratt first vice president and C. C. Hickox second vice president. N. Monsarratt, president of the Hocking Valley railroad, was chosen president of the Kanawha and Michigan, Decatur Axtell first vice president and Ralph W. Hickox second vice president.

Some time next week it is expected that the newly-elected officers will go over the Toledo and Ohio Central on an inspection tour.

To Help the Boers.

PHILADELPHIA, Dec. 30.—Over 400 delegates representing 90 divisions of the Ancient Order of Hibernians of Philadelphia, with a total membership of 20,000, held a secret meeting in industrial hall for the purpose of taking some action with a view to helping the Boers in their war with Great Britain. It was said that delegates would be assessed \$2.50 apiece to send hospital ship to Boers.

TO PROTECT LIBERIA

Probable Mission of Cruiser Montgomery.

ALSO TO LOCATE COALING STATION

Asserted in London That the United States and Great Britain May Ask France to Define the Boundary—Bradford Urged Coaling Stations.

LONDON, Dec. 30.—It was learned that the United States cruiser Montgomery's visit to Liberia was apparently the result of overtures made to Washington by that republic. Though the British government was said to be in ignorance of the purpose of the Montgomery's mission, the establishment of a coaling station in Liberia by the United States was regarded as scarcely probable, as, it is asserted, no Liberian port has any facilities for coaling, all of them being open and surrounded.

The Associated Press representative learned, however, that a far more important step was under consideration. It consisted in a joint request of the United States and Great Britain upon France to define the boundary between the territory she claims and that claimed by Liberia. This step was not yet decided upon, but Great Britain

THE NEWS REVIEW

Won very earnest commendation from National, State and County Republican Headquarters for services rendered the Grand Old Party during the late political battle in Ohio.

The NEWS REVIEW stands in line with Republicanism, the Workingmen of the Nation and Good Government. We fling our flag to the breeze and proclaim our principles. We believe in true Unionism—a fair day's wage for a fair day's work. We will do battle royal for Republicanism in 1900. Our choice as standard bearer is WILLIAM McKINLEY, of Ohio.

only awaited the United States assent to become a party to such a request.

It was alleged that France, for many years, has been encroaching on Liberia and it was only by a strenuous protest of the United States that she was prevented from appropriating a large slice of Liberia in 1834.

According to the Hon. Arthur Ponsonby, managing director of the Liberia rubber syndicate, which recently guaranteed the interest of Liberia's public debt, the Montgomery's visit was probably prompted by a desire to ascertain the extent of French activity. Mr. Ponsonby said in part:

"Bishop Hartzell, while in Monrovia this year, strongly urged the government to interest the United States in preserving the boundaries, with the result that Liberia appointed a mission to Washington. I believe it has already made representations, and presume the commander of the Montgomery investigated both this and the possibility of a coaling station."

WASHINGTON, Dec. 30.—As to the real objects of the Montgomery's cruise, it was believed that the navy department had its eye upon a possible coaling station on the west coast. Before and during the civil war the United States had no less than three coaling stations on that coast. They were practically abandoned when the West African station was dropped from the list, but the chief of the equipment bureau, Admiral

Bradford, has strongly urged that they be re-established, so as to insure our naval vessels a source of coal supply when passing from the eastern Atlantic states around to the Philippines and China, in the event that the Suez canal should be closed against them. The Liberian government always has been willing, and even anxious, that the station on its coast should be kept up, it only as a manifestation of the interest of the United States in the colony it created, and to protect it by our moral influence against European aggression.

DEATH OF FATHER MALONE.

He Was a Staunch Unionist During the War of the Rebellion.

NEW YORK, Dec. 30.—Rev. Sylvester Malone, pastor of the Roman Catholic church of Saints Peter and Paul, Brooklyn, and a member of the board of regents of the University of New York, died, aged 79 years. He had been in failing health for some time, past and took to his bed about three weeks ago.

In 1854 Father Malone visited Europe, and while there witnessed the council of bishops which Pius IX convened at Rome for the purpose of proclaiming the dogma of the immaculate conception. While he was absent a mob, stirred by the political and religious passions which then fermented Williamsburg, attacked his church and would have burned it but for the prompt interference of the authorities. At the beginning of the Civil war Father Malone hoisted a Union flag on his church spire and there it remained until it was taken down in order that it might be carried to the front by Williamsburg men. It was replaced by another flag which the citizens presented. All through the war he labored ardently in behalf of the Union cause, contributing generously both in money and exertion.

MAY NEVER BE SAME MENTALLY.

But the Physician said Boutelle Might Recover Health.

BOSTON, Dec. 30.—To those who inquired after the condition of Congressman Boutelle at the McLean asylum, the reply was that he was getting along nicely and was improving in strength. Dr. Daniel A. Robinson, the physician who came from Bangor to attend him after he was stricken at Young's hotel, said that while the congressman may recover his physical health and vigor, it is possible that he may never be the same again mentally.

TERRORIZED AMIGOS

Rebels Abused Friendly Filipinos and Chinamen.

WHITSELL GOT TRACK OF ENEMY.

He Was Unable, However, to Bring on an Engagement—Colonel Hare, Following a Party of American Prisoners, Lost Track of Them.

MANILA, Dec. 30.—The insurgents who evacuated the coast towns between Dagupan and Vigan, fleeing to the mountains before the advancing Americans, returned in small bands to the towns the Americans do not occupy, terrorizing the natives and Chinamen who showed friendship for the Americans. The natives and Chinamen sought the protection of the American garrisons.

Colonel Whitsell's cavalry, while scouting in the vicinity of Trinidad, found evidence of Filipino soldiers being in that vicinity, but it was impossible to bring about an engagement.

The recent increase in the garrison of Nampacan, against a threatened rebel attack on Christmas day, averted trouble.

Colonel Luther R. Hare of the Thirty-third infantry, who had been following a party of American prisoners, lost track for about three days, Dec. 20, of their signs and evidences of their passage that they customarily left behind them. It was thought the prisoners were separated and conveyed to remote parts of the mountains. This probably increased the difficulties of General Young's troops to effect a rescue.

General Wheeler, who was recently in Manila requesting an appointment south in the line of the expected campaign, was at Panique.

WASHINGTON, Dec. 30.—The adjutant general received a cable message from General Otis containing the following:

"MANILA, Dec. 29.

SUBURBAN NEWS.

A NEW INDUSTRY

MAY BE ESTABLISHED IN ON THE NEW CHESTER POT-
THE SUBURB.

Many Residents on the Sick List. Free Methodists Will Inaugurate
Entertained by F. F. F.
F. Club.

Arrangements are being made by Mc-
Cain Brothers, the coopers, which, if car-
ried out according to their present plans
will give the city another industry. It
is their intention to convert a portion of
their stave mill at the power house into
a saw mill. On Thursday they were in
Pittsburg arranging to get logs and
other quotations. Should their plans be
carried out employment will be given a
number of extra workmen and an addi-
tion will have to be built to their pres-
ent plant. A slide from the river to the
mill under the street railway tracks
will also be constructed.

AMONG THE SICK.

A Large Number of Suburbanites Under
the Care of a Physician.

The East End physicians yesterday
reported a new list of sick people in that
part of the city, which follows: Robert
Finley, of St. George street, and Mrs.
John Tinson, of First avenue, are ill
with grip, while August Croft, of Mul-
berry street, and Robert Kelly, of First
avenue, are suffering with pleurisy.
Mrs. Benton Grosshans, of Helana, has
the grip, and Nettie, the 18 year old
daughter of Mr. and Mrs. Daniel Mc-
Kinnon, of Elm street, is suffering with
an attack of typhoid fever. A son of
Albert Hays, of Pennsylvania avenue,
is ill with stomach trouble, and Mrs.
John Foster, of Dixonville, is reported
ill. Grandmother Riley is ill at the
home of her son Edward, on St. George
street, and is in a helpless condition.

They Entertained

The Misses Elizabeth and Annie Mar-
tin entertained a number of friends, at
their home on Pennsylvania avenue,
Thursday evening.

The Four F's club, composed of prom-
inent East End ladies, and their gentle-
men friends, were pleasantly enter-
tained by the Misses Lula and Bessie
Hanley, at their residence on Pennsyl-
vania avenue, near Mulberry street.

Digging Wells.

The carpenters who reside in East End
and who have no work to do at present
are employing their time in digging
wells. John Grant is digging one in his
yard, and William Campbell is digging
two on his property. Contractor John
Schmelzenbach is also digging a 60 foot
well on his property in the Wise ad-
dition.

Made Some Changes.

The street railway company has made
a few changes in the car barn at the
power house. A partition has been
erected in the middle of the barn and a
door has been placed on the southside
of the building.

Erecting Telephone Poles.

The new telephone company will fin-
ish their work of erecting poles in a
few days. Yesterday they erected poles
in Virginia and have just a few streets
yet to work.

The Bell Repaired.

The electric danger bell at the Mul-
berry street crossing that has been out
of order for several days has been re-
paired.

Personals.

Miss Jessie Smith, of Chicago, is a
guest at the home of her brother, John
C. Smith, of Pennsylvania avenue.

Will Close the Office.

The postoffice will be closed Monday
during the same hours as it was Christ-
mas day.

STOPPED WORK

Work on the Chester pottery has been
suspended. The stonemasons have
stopped work on account of the weather,
and a little less than one-third of the
foundation has been finished. Con-
tractor Kerr stated yesterday afternoon
that work would not commence again
until warmer weather sets in.

The grading of streets in the land
company's addition is progressing fa-
vorably, although the weather is inter-
fering with all improvements being
done on the Virginia side of the river.

CHESTER'S LOSS.

South Siders Working at the Mill
Have Been Laid Off For a
Time.

Manager Oliver Bergman, of the
Chester Rolling Mill company, stated
last evening that work on the mill was
practically suspended and only the men
employed erecting the stacks on the
furnaces were working. This means
considerable loss to Chester from a
financial stand point. The mill men,
the majority of who live in Chester,
and the two weeks' pay of the mill
amounts to several thousand dollars.
Chester people hope the railroad will
soon be finished as it means much to
them.

REVIVAL MEETINGS

May Be Started in the Free Methodist
Church Tomorrow Evening.

If the arrangements can be completed
a series of revival meetings will be
started in the Free Methodist church in
Chester tomorrow evening. Miss Crill,
who has been in Hookstown for the last
three weeks conducting revival meet-
ings, is expected to complete her work
this evening. Arrangements are also
being made to have Free Methodist
ministers from other places assist at
these services, which will last indef-
initely.

A Cold Store.

In Chester there is a store that is as
cold as a barn and the proprietor admits
that the statement is true. There is no
place for an outlet to a stove pipe and a
small oil stove is kept burning night
and day. This is insufficient to keep
the room warm and the clerk is com-
pelled to wear his overcoat and ear
muffs in order to keep warm.

Free Methodist Pilgrims.

Today the following persons arrived
in Chester to spend a few days, attend-
ing the proposed revival services:
Charles Phillips, of New Castle; Annie
Stockberger, of Rochester, and Maggie
Barrett, of New Brighton.

Personal.

Mrs. Charles Mackey is spending sev-
eral days with friends at Neil's station,
Pa.

HOW IT'S BACKED.

Undoubted Reliability Is Expressed In
East Liverpool Indorsement.

What you want is home indorsement.
The backing of people you know
East Liverpool proof for East Liver-
pool people.

That's what follows here.
Surely no better backing can be had
than the following from

Mrs. Edmund Parton, of 233 Ravine
street, says: "I had backache, head
ache and other symptoms of the com-
plaint for two years. When the last at-
tack came on I went to the W & W.
pharmacy and got a box of Doan's kid-
ney pills. In a very short time I was
relieved. My husband, who is a painter,
decorator and paper hanger of the firm
of Parton & Jackson, was seized with a
severe attack of kidney complaint.
Some years ago he contracted a fever
which left his kidneys in bad shape, and
ever afterwards he had more or less
trouble. When suffering last a gentle-
man advised him to try Doan's kidney
pills emphasizing the facts that he had
been a sufferer with kidney disease,
confined to his bed; his physician in-
formed him that perhaps he would be
able to get him up in two or three weeks
that he used Doan's kidney pills and in
a day or two he was able to be up and
about his business. My husband got a
box at once. They were prompt in re-
lieving him. We can heartily recom-
mend Doan's kidney pills."

Sold for 50 cents per box by all dealers.

Digging Wells.

The carpenters who reside in East End and who have no work to do at present are employing their time in digging wells. John Grant is digging one in his yard, and William Campbell is digging two on his property. Contractor John Schmelenbach is also digging a 60 foot well on his property in the Wise addition.

Made Some Changes.

The street railway company has made a few changes in the car barn at the power house. A partition has been erected in the middle of the barn and a door has been placed on the southside of the building.

Erecting Telephone Poles.

The new telephone company will finish their work of erecting poles in a few days. Yesterday they erected poles in Virginia and have just a few streets yet to work.

The Bell Repaired.

The electric danger bell at the Mulberry street crossing that has been out of order for several days has been repaired.

Personals.

Miss Jessie Smith, of Chicago, is a guest at the home of her brother, John C. Smith, of Pennsylvania avenue.

Will Close the Office.

The postoffice will be closed Monday during the same hours as it was Christmas day.

STOPPED WORK

ON THE NEW CHESTER POTTERY.

Free Methodists Will Inaugurate Series of Revivals Tomorrow Evening.

Work on the Chester pottery has been suspended. The stonemasons have stopped work on account of the weather, and a little less than one-third of the foundation has been finished. Contractor Kerr stated yesterday afternoon that work would not commence again until warmer weather sets in.

The grading of streets in the land company's addition is progressing favorably, although the weather is interfering with all improvements being done on the Virginia side of the river.

CHESTER'S LOSS.

South Siders Working at the Mill Have Been Laid Off For a Time.

Manager Oliver Bergman, of the Chester Rolling Mill company, stated last evening that work on the mill was practically suspended and only the men employed erecting the stacks on the furnaces were working. This means considerable loss to Chester from a financial stand point. The mill men, the majority of who live in Chester, and the two weeks' pay of the mill amounts to several thousand dollars. Chester people hope the railroad will soon be finished as it means much to them.

REVIVAL MEETINGS

May Be Started In the Free Methodist Church Tomorrow Evening.

If the arrangements can be completed a series of revival meetings will be started in the Free Methodist church in Chester tomorrow evening. Miss Crill, who has been in Hookstown for the last three weeks conducting revival meetings, is expected to complete her work this evening. Arrangements are also being made to have Free Methodist ministers from other places assist at these services, which will last indefinitely.

A Cold Store.

In Chester there is a store that is as cold as a barn and the proprietor admits that the statement is true. There is no place for an outlet to a stove pipe and a small oil stove is kept burning night and day. This is insufficient to keep the room warm and the clerk is compelled to wear his overcoat and ear muffs in order to keep warm.

Free Methodist Pilgrims.

Today the following persons arrived in Chester to spend a few days, attending the proposed revival services: Charles Phillips, of New Castle; Annie Stockberger, of Rochester, and Maggie Barrett, of New Brighton.

Personal.

Mrs. Charles Mackey is spending several days with friends at Neil's station, Pa.

Undoubted Reliability Is Expressed In East Liverpool Indorsement.

What you want is home indorsement. The backing of people you know. East Liverpool proof for East Liverpool people.

That's what follows here. Surely no better backing can be had than the following from

Mrs. Edmund Parton, of 233 Ravine street, says: "I had backache, headache and other symptoms of the complaint for two years. When the last attack came on I went to the W & W. pharmacy and got a box of Doan's kidney pills. In a very short time I was relieved. My husband, who is a painter, decorator and paper hanger of the firm of Parton & Jackson, was seized with a severe attack of kidney complaint. Some years ago he contracted a fever which left his kidneys in bad shape, and ever afterwards he had more or less trouble. When suffering last a gentleman advised him to try Doan's kidney pills emphasizing the facts that he had been a sufferer with kidney disease, confined to his bed; his physician informed him that perhaps he would be able to get him up in two or three weeks that he used Doan's kidney pills and in a day or two he was able to be up and about his business. My husband got a box at once. They were prompt in relieving him. We can heartily recommend Doan's kidney pills."

SUBURBAN NEWS.

A NEW INDUSTRY

MAY BE ESTABLISHED IN THE SUBURB.

Many Residents on the Sick List. Entertained by F. F. F. Club.

Arrangements are being made by McCain Brothers, the coopers, which, if carried out according to their present plans will give the city another industry. It is their intention to convert a portion of their stove mill at the power house into a saw mill. On Thursday they were in Pittsburgh arranging to get logs and other quotations. Should their plans be carried out employment will be given a number of extra workmen and an addition will have to be built to their present plant. A slide from the river to the mill under the street railway tracks will also be constructed.

Mrs. Benton Grosshans, of Helana, has the grip, and Nettie, the 18 year old daughter of Mr. and Mrs. Daniel McKinnon, of Elm street, is suffering with an attack of typhoid fever. A son of Albert Hays, of Pennsylvania avenue, is ill with stomach trouble, and Mrs. John Foster, of Dixonville, is reported ill. AN ERROR CORRECTED.

Many newspapers and people are un-
der the impression that Consul Macrum
left Pretoria before being granted leave
of absence, and this error was repeated
in some of the press dispatches yester-
day. On the contrary Mr Macrum did
not leave Pretoria until December 18,
barely two weeks ago, when he was re-
lieved, under instructions from the state
department, by U. S. Consul Hollis from
Lorenzo Marques. He did not "run
away." As to his reasons for returning
on leave of absence, no one but himself
can say, but he will no doubt explain all
in detail when he arrives in Washington
the latter part of January.

NOT MUCH CHANCE.

Despite Representative Dovenor's
hope that congress will pass the river
and harbors appropriation this session,
Congressman Burton, of Cleveland,
chairman of the committee, insists that
it will be impossible. A combination
has been formed by Southern representa-
tives, of both parties, desirous of local
grants, to force the passage of the bill,
but well informed Washington cor-
respondents say it will scarcely succeed.
Previous experience has shown that it
takes the hardest kind of work to get
the bill through, and it may be as well
for East Liverpool people interested in
the proposed dam at Walkers, not to
build any great hopes of favorable
action this session. Congressman Tay-
ler, as Representative Dovenor says,
has already taken an active interest in
the measure, but in common with his
colleagues seeking similar advantages
for their districts, will likely have to
wait for a more favorable opportunity.
In the meantime there should be no
slacking of effort on the part of those
interested. It's only a question of time
and hustle will bring it.

On His Return--Is No Coward and Did

Things Alone Have Influenced Him,
Says the Representative.

WASHINGTON, Dec. 30.—Representa-
tive Tayler, who was responsible for the
appointment of Consul Macrum at Pre-
toria, in discussing the case said:

"I am familiar with Macrum's tem-
perament, and I know that there can be
no truth in the charge of cowardice.
Either one of two things influenced him.
He feared for the safety of his wife and
children in the case bombardment
should occur, or else he is the bearer of
messages so important that they could
not be entrusted to the mails or the
wire."

Mr. Macrum also represented some
American mining interests in the Trans-
vaal.

COMING ATTRACTIONS.

At the opera house Monday evening
will be seen the famous Pollock Bros.
and their big bill of comedy vaudeville
and athletic entertainment.

world's best leading vaudeville and
specialty artists that can be secured.
Manager Pollock sends word that the
company is giving the very best of sat-
isfaction.

Tuesday Evening.

"My Friend From India" is a ver-
itable trap for laughter. Those who
attend its production at the Grand on
Tuesday evening, may be as serious
minded as they like, but will find them-
selves tripped up into a cauldron of
seething, sizzling fun. On a still night
during the last few months, one could
almost hear the echo of the laughs that
went up from the metropolis where the
play had a long run.

The Famous South Africans

will be seen at the Grand Monday even-
ing, Jan. 8, as a benefit for the hospital
fund. There was a decided demand for
a return engagement of the famous sin-
gers and for that reason they were
booked. Too much cannot be said for
their entertainment.

I will always praise Wine of Cardui. It

Mrs. MINNIE STODGHILL.

Wine of Cardui

It isn't necessary for a woman to give particulars. When she says
she has "female troubles", other women know what that means. It
means days and nights of endless suffering. It means headaches which
no tongue can describe. It means that terrible bearing and dragging
down in the lower abdomen. It means agonizing backache, and shoulder
ache, and arm ache, and aches in the lower limbs. It means nerves on
edge—the blues—despondency and loss of hope. It means debilitating
drains that the doctors call leucorrhoea. It means martyrdom—some-
times even death seems preferable. And still Wine of Cardui will utterly
put those diseases and pains to rout.
It has cured thousands of cases
when nothing else on earth would.
To the budding woman, to the
bride, to the wife, to the expectant
mother, to those going through
the Change of Life, this Vegetable Wine is a blessing.

 of absence, and this error was repeated
 in some of the press dispatches yester-
 day. On the contrary Mr. Macrum did
 not leave Pretoria until December 18,
 barely two weeks ago, when he was re-
 lieved, under instructions from the state
 department, by U. S. Consul Hollis from
 Lorenzo Marques. He did not "run
 away." As to his reasons for returning
 on leave of absence, no one but himself
 can say, but he will no doubt explain all
 in detail when he arrives in Washington
 the latter part of January.

NOT MUCH CHANCE.

Despite Representative Doveney's
 hope that congress will pass the river
 and harbors appropriation this session,
 Congressman Burton, of Cleveland,
 chairman of the committee, insists that
 it will be impossible. A combination
 has been formed by Southern representa-
 tives, of both parties, desirous of local
 grants, to force the passage of the bill,
 but well informed Washington cor-
 respondents say it will scarcely succeed.
 Previous experience has shown that it
 takes the hardest kind of work to get
 the bill through, and it may be as well
 for East Liverpool people interested in
 the proposed dam at Walkers, not to
 build any great hopes of favorable
 action this session. Congressman Tay-
 ler, as Representative Doveney says,
 has already taken an active interest in
 the measure, but in common with his
 colleagues seeking similar advantages
 for their districts, will likely have to
 wait for a more favorable opportunity.
 In the meantime there should be no
 slacking of effort on the part of those
 interested. It's only a question of time
 and hustle will bring it.

WASHINGTON, Dec. 30.—Representa-

Wine of Cardui

It isn't necessary for a woman to give particulars. When she says
 she has "female troubles", other women know what that means. It
 means days and nights of endless suffering. It means headaches which
 no tongue can describe. It means that terrible bearing and dragging
 down in the lower abdomen. It means agonizing backache, and shoulder
 ache, and arm ache, and aches in the lower limbs. It means nerves on
 edge—the blues—despondency and loss of hope. It means debilitating
 drains that the doctors call leucorrhoea. It means martyrdom—some-
 times even death seems preferable. And still Wine of Cardui will utterly
 put those diseases and pains to rout. It has cured thousands of cases
 when nothing else on earth would. To the budding woman, to the
 bride, to the wife, to the expectant
 mother, to those going through
 the Change of Life, this Vegetable Wine is a blessing.

THE OFFICIAL REPORT

Of the Meeting of the Manufacturing Potters

HELD YESTERDAY AFTERNOON

News of the Industry of Interest to East Liverpool People—Condition of Trade. Affairs of the Union Pottery Company.

At the meeting of the United States Potters' association held in the Potters' club rooms on Fifth street yesterday afternoon, the association ordered President W. E. Wells to make the following statement to the public regarding the work the association has done since its reorganization a month or so ago.

The meeting was called for the purpose of comparing the work of the western and eastern committees, that have been for some time engaged independently in revising the selling lists for 1900. The lists submitted were found to be practically uniform and were officially adopted after some slight alterations. The lack of a generally accepted selling scale has resulted in some confusion during the past year, and it has been the duty of the committees to prepare a satisfactory uniform base scale. The idea of the association has not been either to advance or reduce prices, but to settle upon an equitable basis for the different classes of ware, maintaining a proper differential between C. C. and granite, and between granite and porcelain ware.

The date for the next meeting of the United States Potters' association was also discussed, but no decision was reached, further than it is to be held in Pittsburg sometime in January, subject to the call of President C. W. Franzheim, of the Wheeling Pottery company.

EMPTY WAREHOUSES.

Orders Overlapping Into 1900 and Numerous Inquiries Being Received.

The Crockery Journal says: "The potteries all closed Saturday evening. Some of them started up again Tuesday and Wednesday, and are in regular operation this week and will only close again for New Year's day. There are a good many unfilled '99 orders that potters are anxious to get off their files before the regular January trade sets in actively. Less repairs will be needed this holiday season than usual, owing to the various improvements and reconstructions made during the year. The plants generally are in better condition at the close of this year than they have been in former years, and the stocks of all are at the lowest possible point—in fact, with the exception of some broken assortments, the warehouse bins are completely empty. Without orders for the next thirty days the potteries could be advantageously employed in completing assortments of leading staples. With empty warehouses, with orders overlapping into 1900, and with numerous inquiries, nothing seems lacking for the greatest prosperity, if prices are reasonably adjusted."

AWAITING PRICE LIST.

Numerous Orders Being Held Until Schedule Is Definitely Announced.

A few buyers have presented themselves the past week and inquiries by letter continue numerous for next year's trade. It has become necessary to accept more or less specific orders for shipment within the next sixty days, and quite a number have been placed at the November schedule, we are informed. No large orders, however, extending into the new year for regular

spring trade have yet been booked. These are awaiting the settlement of the selling list under consideration, which is expected to be completed this week.—Crockery Journal.

UNION POTTERY.

Trade Journal Speaks of the Condition and Prospects of the Plant.

The Union Co-operative pottery has been closed the past week to complete the inventory of its property and enable Receiver Warner to make the necessary report to the court for his successor, A. J. Cartwright, who will take possession next Monday. The Union has done a satisfactory volume of business under Receiver Warner and has fully maintained its good reputation for the quality of its ware. It needs a reorganization on business principles, with additional capital so that the necessary improvements and additions can be made to enable it to work advantageously. Additional warerooms, working departments and kilns are needed. Several of its operatives are working elsewhere during the shutdown.—Crockery Journal.

NOTES OF THE PLANTS

And Other Items That Will Interest the Pottery Trade.

The clay hands at the Akron pottery presented Joe Barker with a toilet set and rocker. The kiln hands gave Charles Wickline a meerschaum pipe, and the decorators gave Levi Jones a smoking jacket and muffler.

The American Federation of Labor convention passed a resolution endorsing a union label on all pottery and promising to give all assistance to advance the sale of such ware. Now the time is ripe for the adoption of a label by the Brotherhood, and we are reliably informed that the new year will not be far advanced before the union label in the pottery trade is a fact.—Commoner.

Germans are said to have been in correspondence with Secretary Brunner, of the North Carolina board of agriculture with a view to locating a pottery in the western part of that state.

The Hawthorn Pottery company, of Hawthorn, Pa., was chartered this week at Harrisburg with \$20,000 capital, to manufacture and sell pottery.

Local No. 30, Akron, elected the following officers at its last meeting: President, James Wilson; vice president, Charles Deitze; recording secretary, T. J. Mumford; financial secretary, William Wickline; treasurer, John Joblin; inspector, Jerome Stanley; inside guard, William Donnelly; trustees, John Joblin, Milo Hart; delegates to Central Labor union, T. J. Mumford, William Wickline, John Tracy, Jacob Hascroft.

J. T. Croxall has moved to the C. C. Thomson Pottery company, where he has charge of their decorating department.

Prof. Charles F. Binns, the head of the Toronto Art school, is being talked of as the representative of the potters at the Paris exposition.

The Arsenal pottery, of Trenton, N. J., is being offered for sale "on easy terms and at less than one-third of its original cost."

F. W. Fowler, of the American China company, Toronto, spent a few days in New York last week.

Patrick Carr, a kilnman at the Kokomo pottery, had his ankle broken last week by falling from the large steps in a kiln.

Duchess of Sutherland's striking story, "One Hour and the Next," a great many of the characters are potters and the pottery district forms the scene for most of the plot.

During the holiday season several improvements are being made to the office of the East Liverpool Pottery company's plant. About 20 feet of the west end of the warehouse is being taken in as an office and sample room. The ware which occupies this space will be removed to the new addition of the warehouse.

LIBRARY BOARD MEETS

J. R. Warner Resigns as Treasurer of Trustees.

TO CHOSE DIRECTORS TUESDAY

Fifteen to Be Elected at the Next Meeting—Harry Peach Elected Treasurer For Mr. Warner's Unexpired Term -- Last Night's Meeting.

The library directors met last evening in the library rooms. The resignation of J. R. Warner as treasurer of the association was accepted, and Harry Peach was appointed to fill the unexpired term. The bills of J. J. Weisend, for \$28.50, and Miss McLean, for \$20, were ordered paid. The committee cataloguing the library books reported progress, as did the auditing committee. The election of 15 directors will be held next Tuesday evening.

POTTS ARRESTED.

Two Constables and One Officer Succeeded In Capturing Him Last Night.

Constable Powell, Constable Miller and Officer Davidson last evening arrested Frank Potts, to answer to a charge preferred against him several months ago, in the court of Squire Hill, by Nora Norts. Potts gave bond for \$300 and the case will be heard Monday, Jan. 8.

THE WAY TO PROPOSE.

What the Maiden and the Matron Had to Say About It.

"I never could accept a proposal from a man unless the conditions were just right," said the romantic maiden thoughtfully.

"Of course not," replied the matter of fact matron. "He must be the right man in the first place, and he must propose in the second. Those are the conditions that must be always just right before any sensible girl will think of marriage."

"Oh, I don't mean that," returned the maiden. "He must know how to propose. Do you know, I believe if I were really in love with a man and he didn't propose properly I should reject him."

"When it comes to proposals of marriage," replied the matron, with decision, "any way is the right way."

"Oh, no, it isn't," asserted the maiden. "The surroundings must be appropriate. Everything must be in harmony. If my Prince Charming proposes to me in the house, he must be in a dress suit, and he must be earnest but dignified. There must be a certain ease and elegance of manner, and his words must conform to his actions. If he proposes to me in the woods or on the lawn, he may be in negligee attire, outling costume or something like that, and he may then be more impassioned and vehement in his declarations. But I never could accept a man in negligee costume who proposed in the house."

"Don't you be too sure about it," returned the matron.

"Oh, but I am," said the maiden. "I have figured it all out very carefully. The scene must make a perfect picture. It would just kill the romance if it didn't, and I couldn't possibly accept him. And his words and tone! Both must breathe love and yet be in conformity with all the surroundings."

"I've known lots of girls who thought that," said the matron reflectively.

"And it didn't happen that way?"

"No; hardly."

"But in your case?"

The matron sighed. "I had the same idea," she said at last. "I pictured some quiet nook, the birds twittering, the sun shining brightly and all the world joyous as he poured well rounded sentences throbbing with love into my ear. Or else I saw him sinking on one knee in front of the divan upon which I was sitting and looking me straight in the eyes with a long, lingering look of love, while he said: 'Oh, adorable one, be mine! Say that this is not to be a world of Stygian darkness for me, but that the sunlight of true love shall shine ever brightly as we go through life hand in hand!'"

"Oh, beautiful! Lovely!" cried the maiden. "That's just the way I've pictured it. And when your Prince Charming did come what did he say?"

The matron sighed again.

"He was taking me home under an umbrella in a rainstorm," she explained. "I was wet, and he was wet. My hair was stringy, and there was mud on his trousers, and we were altogether two of the most unprepossessing looking mortals you ever saw. When he was about to leave me at the door, he suddenly exclaimed, 'Say, I'd like to carry that umbrella over you all the time.'"

"What? I said in some surprise.

"Oh, to put it in plain words," he said, 'let's get married. How about it?'"

"How dreadful!" exclaimed the maiden.

"Wasn't it?"

"Such an inappropriate place and time!"

"Yes, indeed."

"And such prosaic words!"

"Most prosaic."

"Oh, I couldn't accept a man under those circumstances."

"If he was the right man, you would, nevertheless."

"Oh, I couldn't do it possibly," protested the maiden. "I'd feel that I'd lost half my life. Why, in a case like that he couldn't even fold you in his arms and all that when you said d—"

"Wait a minute," interrupted the matron. "Not so fast. You'll know a lot more about men than you do now when you accept one, no matter how, when or where it may be. There are some features of the occasion they never overlook, but don't you build your hopes too high on everything else being in harmony."—New York Sun.

The Officer Is Taking Some Interest In Humane Work, and Is Doing Some Good. A Live Humane Society May be Organized.

Officer White last evening received word that the horses of Zeke Moore were still standing tied to a fence in the West End. The officer went down to see Zeke, and told him the horses must be sheltered at once. Zeke said he had a stable and would care for the horses in the proper way, and the officer will see that he does.

The officer then continued his humane work. Numerous complaints have been filed about a driver for the Adams Express company abusing the horse he drives, and also that the horses used here are too small for the work they have to do. Officer White notified Agent Gillan, who stated that he was going to his home in Springfield this evening and would report the matter to the superintendent. The officer is determined some step shall be taken in this matter and the driver and company may be prosecuted.

A movement is now on foot to organize an energetic humane society, to see that all cases of cruelty are prosecuted.

THE OFFICIAL REPORT

Of the Meeting of the Manufacturing Potters

HELD YESTERDAY AFTERNOON

News of the Industry of Interest to East Liverpool People—Condition of Trade. Affairs of the Union Pottery Company.

At the meeting of the United States Potters' association held in the Potters' club rooms on Fifth street yesterday afternoon, the association ordered President W. E. Wells to make the following statement to the public regarding the work the association has done since its reorganization a month or so ago.

The meeting was called for the purpose of comparing the work of the western and eastern committees, that have been for some time engaged independently in revising the selling lists for 1900. The lists submitted were found to be practically uniform and were officially adopted after some slight alterations.

The lack of a generally accepted selling scale has resulted in some confusion during the past year, and it has been the duty of the committees to prepare a satisfactory uniform base scale. The idea of the association has not been either to advance or reduce prices, but to settle upon an equitable basis for the different classes of ware, maintaining a proper differential between C. C. and granite, and between granite and porcelain ware.

The date for the next meeting of the United States Potters' association was also discussed, but no decision was reached, further than it is to be held in Pittsburg sometime in January, subject to the call of President C. W. Franzheim, of the Wheeling Pottery company.

EMPTY WAREHOUSES.

Orders Overlapping Into 1900 and Numerous Inquiries Being Received.

The Crockery Journal says: "The potteries all closed Saturday evening. Some of them started up again Tuesday and Wednesday, and are in regular operation this week and will only close again for New Year's day. There are a good many unfilled '99 orders that potters are anxious to get off their files before the regular January trade sets in actively. Less repairs will be needed this holiday season than usual, owing to the various improvements and reconstructions made during the year. The plants generally are in better condition at the close of this year than they have been in former years, and the stocks of all are at the lowest possible point—in fact, with the exception of some broken assortments, the warehouse bins are completely empty. Without orders for the next thirty days the potteries could be advantageously employed in completing assortments of leading staples. With empty warehouses, with orders overlapping into 1900, and with numerous inquiries, nothing seems lacking for the greatest prosperity, if prices are reasonably adjusted."

AWAITING PRICE LIST.

Numerous Orders Being Held Until Schedule Is Definitely Announced.

A few buyers have presented themselves the past week and inquiries by letter continue numerous for next year's trade. It has become necessary to accept more or less specific orders for shipment within the next sixty days, and quite a number have been placed at the November schedule, we are informed. No large orders, however, extending into the new year for regular

spring trade have yet been booked. These are awaiting the settlement of the selling list under consideration, which is expected to be completed this week.—Crockery Journal.

UNION POTTERY.

Trade Journal Speaks of the Condition and Prospects of the Plant.

The Union Co-operative pottery has been closed the past week to complete the inventory of its property and enable Receiver Warner to make the necessary report to the court for his successor, A. J. Cartwright, who will take possession next Monday. The Union has done a satisfactory volume of business under Receiver Warner and has fully maintained its good reputation for the quality of its ware. It needs a reorganization on business principles, with additional capital so that the necessary improvements and additions can be made to enable it to work advantageously. Additional warerooms, working departments and kilns are needed. Several of its operatives are working elsewhere during the shutdown.—Crockery Journal.

NOTES OF THE PLANTS

And Other Items That Will Interest the Pottery Trade.

The clay hands at the Akron pottery presented Joe Barker with a toilet set and rocker. The kiln hands gave Charles Wickline a meerschaum pipe, and the decorators gave Levi Jones a smoking jacket and muffler.

The American Federation of Labor convention passed a resolution endorsing a union label on all pottery and promising to give all assistance to advance the sale of such ware. Now the time is ripe for the adoption of a label by the Brotherhood, and we are reliably informed that the new year will not be far advanced before the union label in the pottery trade is a fact.—Commoner.

Germans are said to have been in correspondence with Secretary Brunner, of the North Carolina board of agriculture with a view to locating a pottery in the western part of that state.

The Hawthorn Pottery company, of Hawthorn, Pa., was chartered this week at Harrisburg with \$20,000 capital, to manufacture and sell pottery.

Local No. 30, Akron, elected the following officers at its last meeting: President, James Wilson; vice president, Charles Deitze; recording secretary, T. J. Mumford; financial secretary, William Wickline; treasurer, John Joblin; inspector, Jerome Stanley; inside guard, William Donnelly; trustees, John Joblin, Milo Hart; delegates to Central Labor union, T. J. Mumford, William Wickline, John Tracy, Jacob Hascroft.

J. T. Croxall has moved to the O. O. Thomson Pottery company, where he has charge of their decorating department.

Prof. Charles F. Binns, the head of the Toronto Art school, is being talked of as the representative of the potters at the Paris exposition.

The Arsenal pottery, of Trenton, N. J., is being offered for sale "on easy terms and at less than one-third of its original cost."

F. W. Fowler, of the American China company, Toronto, spent a few days in New York last week.

Patrick Carr, a kilnman at the Kokomo pottery, had his ankle broken last week by falling from the large steps in a kiln.

Duchess of Sutherland's striking story, "One Hour and the Next," a great many of the characters are potters and the pottery district forms the scene for most of the plot.

During the holiday season several improvements are being made to the office of the East Liverpool Pottery company's plant. About 20 feet of the west end of the warehouse is being taken in as an office and sample room. The ware which occupies this space will be removed to the new addition of the warehouse.

"Oh, no, it isn't," asserted the maiden. "The surroundings must be appropriate. Everything must be in harmony. If my Prince Charming proposes to me in the house, he must be in a dress suit, and he must be earnest but dignified. There must be a certain ease and elegance of manner, and his words must conform to his actions. If he proposes to me in the woods or on the lawn, he may be in negligee attire, out of costume or something like that, and he may then be more impassioned and vehement in his declarations. But I never could accept a man in negligee costume who proposed in the house."

"Don't you be too sure about it," returned the matron.

"Oh, but I am," said the maiden. "I have figured it all out very carefully. The scene must make a perfect picture. It would just kill the romance if it didn't, and I couldn't possibly accept him. And his words and tone! Both must breathe love and yet be in conformity with all the surroundings."

"I've known lots of girls who thought that," said the matron reflectively.

"And it didn't happen that way?"

"No; hardly."

"But in your case?"

The matron sighed.

"I had the same idea," she said at last. "I pictured some quiet nook, the birds twittering, the sun shining brightly and all the world joyous as he poured well rounded sentences throbbing with love into my ear. Or else I saw him sinking on one knee in front of the divan upon which I was sitting and looking me straight in the eyes with a long, lingering look of love, while he said: 'Oh, adorable one, be mine! Say that this is not to be a world of Stygian darkness for me, but that the sunlight of true love shall shine ever brightly as we go through life hand in hand!'"

"Oh, beautiful! Lovely!" cried the maiden. "That's just the way I've pictured it. And when your Prince Charming did come what did he say?"

The matron sighed again.

"He was taking me home under an umbrella in a rainstorm," she explained. "I was wet, and he was wet. My hair was stringy, and there was mud on his trousers, and we were altogether two of the most unprepossessing looking mortals you ever saw. When he was about to leave me at the door, he suddenly exclaimed, 'Say, I'd like to carry that umbrella over you all the time.'"

"What? I said in some surprise."

"Oh, to put it in plain words," he said, 'let's get married. How about it?'"

"How dreadful!" exclaimed the maiden.

"Wasn't it?"

"Such an inappropriate place and time!"

"Yes, indeed."

"And such prosaic words?"

"Most prosaic."

"Oh, I couldn't accept a man under those circumstances."

"If he was the right man, you would, nevertheless."

"Oh, I couldn't do it possibly," protested the maiden. "I'd feel that I'd lost half my life. Why, in a case like that he couldn't even fold you in his arms and all that when you said d—"

"Wait a minute," interrupted the matron. "Not so fast. You'll know a lot more about men than you do now when you accept one, no matter how, when or where it may be. There are some features of the occasion they never overlook, but don't you build your hopes too high on everything else being in harmony."—New York Sun.

WHITE TO THE FRONT

Compels One Man to Care For His Horse

AND SERVES NOTICE ON ANOTHER

The Officer Is Taking Some Interest In Humane Work, and Is Doing Some Good. A Live Humane Society May Be Organized.

Officer White last evening received word that the horses of Zeke Moore were still standing tied to a fence in the West End. The officer went down to see Zeke, and told him the horses must be sheltered at once. Zeke said he had a stable and would care for the horses in the proper way, and the officer will see that he does.

The officer then continued his humane work. Numerous complaints have been filed about a driver for the Adams Express company abusing the horse he drives, and also that the horses used here are too small for the work they have to do. Officer White notified Agent Gillan, who stated that he was going to his home in Springfield this evening and would report the matter to the superintendent. The officer is determined some step shall be taken in this matter and the driver and company may be prosecuted.

A movement is now on foot to organize an energetic humane society, to see that all cases of cruelty are prosecuted.

CHRISTIAN ENDEAVOR.

People For the Week Beginning Dec. 31.—Comment by Rev. S. H. Doyle.

Topic.—The heavenly record.—Luke x, 20; Rev. iii, 1-5. (A New Year's meeting.)

The references in these passages are to the "book of life," an expression of frequent occurrence in the Scriptures. In its figurative use in the Old Testament it is the register of the covenant people. There and elsewhere it also refers to the list which God keeps in heaven of those who are His, whose names, as it were, are written in a book, giving them a title to eternal life. "It contains a list of the righteous and insures to those whose names are written therein life before God first in the earthly kingdom of God and then eternal life also." It is the record book of God, in which He keeps the names of those who are faithful and true to Him in Christ and from which He blots out the names of all who are unfaithful to Him. The reference suggests that—

1. If our names are written in the book of life, it should cause us great joy (Luke x, 20). To the 70 on their return from their missionary tour and their report of their great power—that even devils were subject to them—Jesus said, "Notwithstanding, in this rejoice not that the spirits are subject unto you, but rejoice rather because your names are written in heaven." To have power over evil spirits for the good of mankind would certainly be cause for rejoicing, but how much greater cause for rejoicing is the fact that our names are written in this Lamb's book of life. That record tells us that we are saved—saved for time and eternity. It tells us that we are the children of God and that God is specially interested in us and exercises special care and control of us. If anything in the world can cause us joy, this fact should, and a joy that will manifest itself in gratitude to God and consecration to His service.

2. If our names are written in the book of life, our one aim in life should be to see that they are not blotted out. They may be blotted out. Moses prayed that his name be blotted out for the good of Israel, which of course could not be done. In Rev. iii, 5, Jesus says, "He that overcometh, the same shall be clothed in white raiment, and I will not blot out his name out of the book of life." This statement shows that it is possible for our names to be blotted out of God's book of life. What a sad catastrophe such a fate would be! If the chief joy of earth is in having our names written in heaven, who can describe the sorrow of having them blotted out? But, though they may, yet they need not be blotted out. If we overcome—overcome sin, overcome trial, overcome unbelief—they shall not be. And Jesus will help us so that we can overcome. He has overcome the world, and through Him we may overcome it.

Let us be faithful to God in Christ and keep our names in the book of life, for thus only can we enter heaven. "Then shall in nowise enter into it anything that defileth, *** but they which are written in the Lamb's book of life."

In the Shadow.

We must all go there sometimes. The glare of the daylight is too brilliant. Our eyes become injured and unable to discern the delicate shades of color or appreciate neutral tints—the shadowed chamber of sickness, the shadowed house of mourning, the shadowed life from which the sunlight has gone. But fear not. It is the shadow of God's hand. He is leading thee. There are lessons which can be learned only there. The photograph of His face can be only fixed in the dark chamber. But do not suppose that He has cast thee aside. Thou art still in His quiver. He has not flung thee away as a worthless thing. He is only keeping thee close till the moment comes when He can send thee most swiftly and surely on some errand in which He will be glorified. O shadowed solitary one, remember how closely the quiver is bound to the warrior, within easy reach of the hand and guarded jealously!—Rev. F. B. Meyer

The English Prayer Book.

The English Prayer Book is what it is to the English because it grew with that people, and it could ingrain itself in national character because it was in itself in some sense a product of national evolution from faroff Anglo-Saxon times. The history of the Prayer

Book reaches far beyond the First Book of Edward VI. The ancient parts of the liturgy are witnesses and, as it were, title deeds of the historic continuity of our catholicity and of English character.—Churchman.

BLACKBURN MAY WIN.

Anti-Goebelses Apparently Not United Against Him — Republicans Replied to Democrats.

FRANKFORT, Ky., Dec. 30.—The address of the Republican leaders in reply to the recent address of the Goebel leaders endorsing the contesting candidates on the Democratic state ticket was given out. It replies specifically to the Democratic charges of fraud and makes some sensational counter charges. It was signed by Governor Taylor, Chairman Barnett, Senator Deboe, Congressman Page and others, including all members of the state central committee. Though some of the anti-Goebel leaders are going hard to bring their forces against Blackburn as well as against Goebel, the anti-Blackburn movement does not appear to be strong; and, unless it can gather strength as a result of the tangle over the state contests, Blackburn will win for United States senator with the ease his managers have been claiming for him.

THE BUBONIC PLAGUE AT HONOLULU

From Report Received Wyman Did Not Consider Situation Critical.

NEW YORK, Dec. 30.—The following telegram was received by the supervising surgeon general of the United States marine hospital service from Surgeon D. A. Carmichael, at Honolulu, H. I.:

"HONOLULU, H. I., Dec. 20, via Victoria, B. C., Dec. 28, 1899.—There are two cases of reported plague at Honolulu. Two deaths Dec. 12. No new cases to Dec. 20. Quarantine against infection raised Dec. 19."

Surgeon General Wyman, in referring to the dispatch, said he did not consider the situation critical in any respect.

Sh. feldt to Be Court-martialed.

WASHINGTON, Dec. 30.—The war department accepted the challenge of Captain R. W. Shufeldt, U. S. A., retired, and has transmitted all the papers referring to the case of the officer to Major General Merritt for court-martial proceedings. Several days ago the adjutant general, by direction of the secretary of war, ordered Captain Shufeldt to place himself within the jurisdiction of the civil courts of Maryland, before which that officer was the defendant in divorce proceedings. He refused. It was said he kept away to avoid paying alimony.

May Join a Steel Combine.

SCRANTON, Pa., Dec. 30.—The stockholders of the Lackawanna Iron and Steel company voted in favor of increasing the capital stock from \$3,750,000 to \$25,000,000. It was said to be put the company in a position to take advantage of any opportunity that might present itself for bettering its condition. The general impression here is that the company is getting into shape to become a part of the big \$50,000,000 steel concern organizing in Buffalo.

Pingree Sent a Message.

LANSING, Mich., Dec. 30.—The house refused to adopt the senate's resolution to end the extra session at a certain time and voted to adjourn next Tuesday. In response to the defeat in the senate of his equal taxation amendment and in lieu thereof, Governor Pingree sent to the legislature a message urging the specific rates of taxation under which the railroads are now taxed be increased.

A membership of about 12,000 has been enrolled.

FARRISBURG, Dec. 30.—Nelson Lee, a well-known merchant and brother of State Senator D. S. Lee and Samuel Lee, who was buried Thursday, was found dead Friday in his shop. There was every indication that death resulted from heart trouble. The extreme cold weather is believed to have hastened his death. Lee was 76 years old.

BUSINESS PROSPEROUS.

Dun's Review Said It Was Thoroughly Sane In Spite of the Eos-ton Failures.

NEW YORK, Dec. 30.—R. G. Dun & Co.'s weekly review of trade issued today said in part:

No correct report of failures in 1899 can be made until the year has closed. A collapse of speculation in copper stocks has swelled the aggregate at Boston alone over \$1,000,000 within a few days, and might yet add to the record. The failures thus far reported are fewer in number than in any year since 1893, and smaller in amount of commercial liabilities than in any year since 1891. The aggregate of defaulted liabilities is \$129,169,000, or nearly two thirds of the banking liabilities were added within a few days, the aggregate reaching about \$3,500,000. The commercial liabilities have been about \$3,250,000, though exact returns for a few recent failures are not yet obtainable. No other years except 1885, with defaulted liabilities of \$3,150,000, and 1889, with \$3,720,000, have failures been as small since the agency commenced quarterly returns in 1875. The average of liabilities per failure is less than \$1,000, the smallest in any year of the 25. A gratifying evidence that commercial liabilities are further removed than usual from the point of danger.

The week has been exciting only at Boston, where the failures growing out of speculation and the efforts to re-establish banks a financial suspension have not given the week a holiday character. Yet general business is thoroughly safe and prosperous and no important firms have failed save some which were individually embarrassed with concerns involved in speculation.

The speculative troubles come because the volume of legitimate business, and the unprejudiced distribution of profits interest and dividends, make it no longer possible to carry some stocks on borrowed money. Prosperity itself placed a check on speculative ventures.

What and cotton speculation has taken a holiday, prices scarcely varying, and the movement of both is surprising. The corn exports continue about as large as last year.

The industries are closing the most remarkable year of their history. Long established branches have undergone a veritable reconstruction, vastly increasing their capacity, while new industries, which scarcely exist a year or two ago, have enlisted a vast capital, altered modes of business and of production in almost every direction and improved conditions for the future almost beyond calculation. Electrical developments in light, heat and power, in making character work, performing wonders in production of materials and providing transportation all over the land, deserve especial attention.

For such reconstruction the increase in demand for iron and steel products is the great feature of the year. With 49,736 tons unsold and 44,549 produced weekly Jan. 1, hampered by severe weather so that the output nearly dropped 10,000 tons, but expanding in every month afterwards, the industry is now producing about 50,000 tons weekly, and unsold stocks are reduced to 12,000 tons, only yet orders unfilled will require six to nine months' work from most of the establishments. Prices have not changed the past week, though demand for some products improved a little. The average of prices closes 119.5 per cent higher than Jan. 1 for pig and 102.8 per cent higher for products.

Industries which depend on individual consumption have gained less, though more than population. Wool has been raised by speculation 50 per cent, but has been very largely consumed with great demand for goods, which have advanced but 17 per cent. Stocks now held are said to be 157,295,599 pounds.

Failures for the week have been 21 in the United States, against 25 last year, and 2 in Canada, against 12 last year.

DAWES ON PENDING PROBLEMS.

How the Trusts Should Be Regulated. The Philippine Policy.

SPRINGFIELD, Ill., Dec. 30.—Charles G. Dawes, controller of the currency, made a speech at the Republican state lovefeast in the assembly hall, which was regarded by many as outlining the policy of the administration on two points, the Philippine policy and the attitude of the Republican party toward trusts.

Speaking on trusts, Mr. Dawes said it was the duty of the Republican party to conserve public interests. Wherever trusts proved themselves inimical to the public weal they must be restrained and controlled, and if necessary laws passed that would so much encourage active competition as to bring about the disintegration of the trusts.

Mr. Dawes asserted that encouragement received from anti-imperialists had much to do with the prolongation of the war in the Philippines. He said that President McKinley would refuse to be turned from his course in regard to the Philippines by the protests of the anti-imperialists.

Wife Murderer Discharged.

BALTIMORE, Dec. 30.—Franklin B. Livingston, the blind man, who late on Christmas night strangled his wife, Dora Livingston, and on the following day paid a man \$1 to lead him to the police station, was discharged from custody by Judge Stockbridge. The evidence before the coroner's jury showed that Livingston had been attacked in the middle of the night by his wife and that he choked her to death to save his own life.

CHRISTIAN ENDEAVOR.

People For the Week Beginning Dec. 31.—Comment by Rev. S. H. Doyle.

Topic.—The heavenly record.—Luke x. 20; Rev. vi. 1-5. (A New Year's meeting.)

The references in these passages are to the "book of life," an expression of frequent occurrence in the Scriptures. In its figurative use in the Old Testament it is the register of the covenant people. There and elsewhere it also refers to the list which God keeps in heaven of those who are His, whose names, as it were, are written in a book, giving them a title to eternal life. "It contains a list of the righteous and insures to those whose names are written therein life before God first in the earthly kingdom of God and then eternal life also." It is the record book of God, in which He keeps the names of those who are faithful and true to Him in Christ and from which He blots out the names of all who are unfaithful to Him. The reference suggests that—

1. If our names are written in the book of life, it should cause us great joy (Luke x. 20). To the 70 on their return from their missionary tour and their report of their great power—that even devils were subject to them—Jesus said, "Notwithstanding, in this rejoice not that the spirits are subject unto you, but rejoice rather because your names are written in heaven." To have power over evil spirits for the good of mankind would certainly be cause for rejoicing, but how much greater cause for rejoicing is the fact that our names are written in this Lamb's book of life. Moses prayed that his name be blotted out for the good of Israel, which of course could not be done. In Rev. iii. 5, Jesus says, "He that overcometh, the same shall be clothed in white raiment, and I will not blot out his name out of the book of life." This statement shows that it is possible for our names to be blotted out of God's book of life. What a sad catastrophe such a fate would be! If we overcome—overcome sin, overcome trial, overcome unbelief—they shall not be. And Jesus will help us so that we can overcome. He has overcome the world, and through Him we may overcome it.

Let us be faithful to God in Christ and keep our names in the book of life, for thus only can we enter heaven. "Then shall in nowise enter into it any thing that defileth, *** but they which are written in the Lamb's book of life."

BUSINESS PROSPEROUS.

Don's Review Said It Was Thoroughly Safe in Spite of the Boston Failures.

NEW YORK, Dec. 30.—R. G. Don & Co.'s weekly review of trade issued today said in part:

No correct report of failures in 1899 can be made until the year has closed. A collapse of speculation in copper stocks has swelled the aggregate at Boston alone over \$1,000,000 within a few days, and might yet add to the record. The failures thus far reported are fewer in number than in any year since 1893, and smaller in amount of commercial liabilities than in any year since 1881. The aggregate of defaulted liabilities is \$123,000,000, but nearly two-thirds of the banking liabilities were added within a few days, the aggregate reaching about \$40,000,000. The commercial liabilities have been about \$80,000,000, though exact returns for a few recent failures are not yet obtainable. No other years except 1881, with defaulted liabilities of \$81,500,000, and 1880, with \$57,200,000, have failures been as small since the agency commenced quarterly returns in 1875. The average of liabilities per failure is less than \$1,500, the smallest in any year of the 21, a gratifying evidence that commercial liabilities are further removed than usual from the point of danger.

The week has been exciting only at Boston, where the failures growing out of speculation and the efforts to re-establish banks as defunct suspensions have not given the week a hazy character. Yet general business is thoroughly safe and prosperous and no important firms have failed save some which were individually connected with concerns involved in speculation.

The speculative troubles come because the volume of legitimate business, and the consequent accumulation of profits in interest and dividends, make it no longer possible to carry some stocks on borrowed money. Prosperity itself placed a check on speculative ventures.

What and cotton speculation has taken a holiday, prices scarcely varying, and the movement of both is surprising. The corn exports continue about as large as last year.

The industries are closing the most remarkable year of their history. Long established branches have undergone a veritable reconstruction, vastly increasing their capacity, while new industries, which scarcely exist a year or two ago, have enlisted a vast capital interest in modes of business and of production in almost every direction and improved conditions for the future almost beyond calculation. Electrical developments in light, heat and power, in making carcases work, performing wonders in production of materials and providing transportation all over the land, deserve especial attention.

For such reconstruction the increase in demand for iron and steel products is the great feature of the year. With 416,733 tons unsold and 44,910 produced weekly Jan. 1, hindered by severe weather so that the output dropped 10,000 tons, but expanding in every month afterwards, the industry is now producing about 60,000 tons weekly, and unsold stocks are reduced to 142,927 tons, and yet orders unfilled will require six to nine months' work from most of the establishments. Prices have not changed the past week, though demand for some products improved a little. The average of prices closes 119.5 per cent higher than Jan. 1 for pig and 102.8 per cent higher for products.

Industries which depend on individual consumption have gained less, though more than population. Wool has been raised by speculation 10 per cent, but has been very largely consumed with great demand for goods, which have advanced but 17 per cent. Stocks now held are said to be for 25,500 pounds.

Failures for the week have been 241 in the United States, against 207 last year, and 2 in Canada, against 12 last year.

DAWES ON PENDING PROBLEMS.

How the Trusts Should Be Regulated. The Philippine Policy.

SPRINGFIELD, Ill., Dec. 30.—Charles G. Dawes, comptroller of the currency, made a speech at the Republican state lovefeast in the assembly hall, which was regarded by many as outlining the policy of the administration on two points, the Philippine policy and the attitude of the Republican party toward trusts.

Speaking on trusts, Mr. Dawes said it was the duty of the Republican party to conserve public interests. Wherever trusts proved themselves inimical to the public weal they must be restrained and controlled, and if necessary laws passed that would so much encourage active competition as to bring about the disintegration of the trusts.

Mr. Dawes asserted that encouragement received from anti-imperialists had much to do with the prolongation of the war in the Philippines. He said that President McKinley would refuse to be returned from his course in regard to the Philippines by the protests of the anti-imperialists.

Wife Murderer Discharged.

BALTIMORE, Dec. 30.—Franklin B. Livingston, the blind man, who late on Christmas night strangled his wife, Dora Livingston, and on the following day paid a man \$1 to lead him to the police station, was discharged from custody by Judge Stockbridge. The evidence before the coroner's jury showed that Livingston had been attacked in the middle of the night by his wife and that he choked her to death to save his own life.

CHRISTIAN ENDEAVOR.

People For the Week Beginning Dec. 31.—Comment by Rev. S. H. Doyle.

Topic.—The heavenly record.—Luke x, 20; Rev. iii, 1-5. (A New Year's meeting.)

The references in these passages are to the "book of life," an expression of frequent occurrence in the Scriptures. In its figurative use in the Old Testament it is the register of the covenant people. There and elsewhere it also refers to the list which God keeps in heaven of those who are His, whose names, as it were, are written in a book, giving them a title to eternal life. "It contains a list of the righteous and insures to those whose names are written therein life before God first in the earthly kingdom of God and then eternal life also." It is the record book of God, in which He keeps the names of those who are faithful and true to Him in Christ and from which He blots out the names of all who are unfaithful to Him. The reference suggests that—

1. If our names are written in the book of life, it should cause us great joy (Luke x, 20). To the 70 on their return from their missionary tour and their report of their great power—that even devils were subject to them—Jesus said, "Notwithstanding, in this rejoice not that the spirits are subject unto you, but rejoice rather because your names are written in heaven." To have power over evil spirits for the good of mankind would certainly be cause for rejoicing, but how much greater cause for rejoicing is the fact that our names are written in this Lamb's book of life. That record tells us that we are saved—saved for time and eternity. It tells us that we are the children of God and that God is specially interested in us and exercises special care and control of us. If anything in the world can cause us joy, this fact should, and a joy that will manifest itself in gratitude to God and consecration to His service.

2. If our names are written in the book of life, our one aim in life should be to see that they are not blotted out. They may be blotted out. Moses prayed that his name be blotted out for the good of Israel, which of course could not be done. In Rev. iii, 5, Jesus says, "He that overcometh, the same shall be clothed in white raiment, and I will not blot out his name out of the book of life." This statement shows that it is possible for our names to be blotted out of God's book of life. What a sad catastrophe such a fate would be! If the chief joy of earth is in having our names written in heaven, who can describe the sorrow of having them blotted out? But, though they may, yet they need not be blotted out. If we overcome—overcome sin, overcome trial, overcome unbelief—they shall not be. And Jesus will help us so that we can overcome. He has overcome the world, and through Him we may overcome it.

Let us be faithful to God in Christ and keep our names in the book of life, for thus only can we enter heaven. "Then shall in nowise enter into it anything that defileth, *** but they which are written in the Lamb's book of life."

In the Shadow.

We must all go there sometimes. The glare of the daylight is too brilliant. Our eyes become injured and unable to discern the delicate shades of color or appreciate neutral tints—the shadowed chamber of sickness, the shadowed house of mourning, the shadowed life from which the sunlight has gone. But fear not. It is the shadow of God's hand. He is leading thee. There are lessons which can be learned only there. The photograph of His face can be only fixed in the dark chamber. But do not suppose that He has cast thee aside. Thou art still in His quiver. He has not flung thee away as a worthless thing. He is only keeping thee close till the moment comes when He can send thee most swiftly and surely on some errand in which He will be glorified. O shadowed solitary one, remember how closely the quiver is bound to the warrior, within easy reach of the hand and guarded jealously!—Rev. F. B. Meyer

The English Prayer Book.

The English Prayer Book is what it is to the English because it grew with that people, and it could ingrain itself in national character because it was in itself in some sense a product of national evolution from faroff Anglo-Saxon times. The history of the Prayer

Book reaches far beyond the First Book of Edward VI. The ancient parts of the liturgy are witnesses and, as it were, title deeds of the historic continuity of our catholicity and of English character.—Churchman

BLACKBURN MAY WIN.

Anti-Goebelites Apparently Not United Against Him — Republicans Replied to Democrats.

FRANKFORT, Ky., Dec. 30.—The address of the Republican leaders in reply to the recent address of the Goebel leaders endorsing the contesting candidates on the Democratic state ticket was given out. It replies specifically to the Democratic charges of fraud and makes some sensational counter charges. It was signed by Governor Taylor, Chairman Barnett, Senator Deboe, Congressman Page and others, including all members of the state central committee. Though some of the anti-Goebel leaders are trying hard to bring their forces against Blackburn as well as against Goebel, the anti-Blackburn movement does not appear to be strong; and, unless it can gather strength as a result of the tangle over the state contests, Blackburn will win for United States senator with the ease his managers have been claiming for him.

THE BUBONIC PLAGUE AT HONOLULU

From Report Received Wyman Did Not Consider Situation Critical.

NEW YORK, Dec. 30.—The following telegram was received by the supervising surgeon general of the United States marine hospital service from Surgeon D. A. Carmichael, at Honolulu, H. I.:

"HONOLULU, H. I., Dec. 20, via Victoria, B. C., Dec. 28, 1899.—There are two cases of reported plague at Honolulu. Two deaths, Dec. 12. No new cases to Dec. 20. Quarantine against infection raised Dec. 19."

Surgeon General Wyman, in referring to the dispatch, said he did not consider the situation critical in any respect.

WASHINGTON, Dec. 30.—The war department accepted the challenge of Captain R. W. Shufeldt, U. S. Several days ago the adjutant general, by direction of the secretary of war, ordered Captain Shufeldt to place himself within the jurisdiction of the civil courts of Maryland, before which that officer was the defendant in divorce proceedings. He refused. It was said he kept away to avoid paying alimony.

The general impression here is that the company is getting into shape to become a part of the big \$50,000,000 steel concern organizing in Buffalo.

EPWORTH LEAGUE.

Topic For the Week Beginning Dec. 31, "The Heavenly Record"—Text. Luke 1, 20; Rev. III, 1-5.

"Rejoice because your names are written in heaven."

It is a common figure of speech in the Bible, that of record books in which the actions of men are written down and preserved by God and that from these documents the future destiny of each person shall be determined. Perhaps it refers to the custom in oriental lands of having a court historian or chronicler, who preserved in writing the notable events of the times and noted the names of those deserving special remembrance and reward because of eminent service given the king.

The idea is expanded in the book of Revelation and assumes a very poetical form with dramatic force. Malachi closes the Old Testament canon with a similar declaration of a book of remembrance in which God's chosen ones are recorded for reward.

The closing year emphasizes the thought of our past life record. What has it been? With all of us the message of the Spirit to the Lord's church should sound warning: "I have not found thy works perfect before God. Be watchful and strengthen the things which remain, that are ready to die. Hold fast and repent."

Warning and Promise.

"Tis greatly wise to talk with our past hours."

This is the time when men take account of stock and figure up gains and losses. He who never strikes a balance sheet may get a living, but can scarcely expect to make much success in business. Men need to reckon up at times and see how their investments are paying. If some ventures are failures, close them out. Beware of similar things in future. What pays well increase and take care of. We must be warned by the past. We need at this time to consider seriously what our course in life is yielding. What way does it shape and tend? "If thou shalt not watch, I will come on thee as a thief, and thou shalt not know what hour I will come on thee." That warning sounds as sternly as when spoken to the Sardinian people. It applies to us. Again, the promise is equally firm, "He that overcometh, the same shall be clothed in white raiment, and I will not blot out his name out of the book of life, but I will confess his name before My Father and before His angels." It will pay to overcome, but is folly to be overcome. We have been sufficiently warned. Let us take heed!

Bishop Gilbert Haven.

He was born in Malden, Mass., in 1821 and died in the old homestead in 1880. He came of good New England Methodist stock, was graduated from Wesleyan university and took a place in the church for which he was well fitted. His was a personality very unlike that of any other man of his time in many particulars. He saw visions of things to be and with great energy set about making them real. He was a reformer and so was feared by many of the timid who dreaded to have old forms disturbed. As he grew old men

BISHOP GILBERT HAVEN.

found him in practical matters soundly conservative of all that was good and safely progressive where advance was needed.

His memorable work was done as editor of Zion's Herald and as bishop in the colored work of the south. His death was hastened by African fever

contracted on his episcopal tour to Liberia. Whoever came close enough to him to form personal acquaintance found in him one of the most delightful and faithful of friends. He did much to quicken the church to a higher and broader as well as deeper and more intense life.

Personal Pledges.

There is much of helpfulness in pledges made to each other among young people. It is not a sign of weakness, but of strength, to join together in any good resolution. A young man awakens to the fact that cigarette smoking is useless, is wasteful, may be harmful and ought to be given up. He resolves to smoke no more. Shall he go alone? He can do so. He is strong enough, but he likes company. He feels interested that others shall see the truth as he sees it. He talks, argues, persuades and induces others to do as he does. They agree. They pledge to each other. This is no surrender of personal liberty, but is a strengthening bond and cement of friendship and promoter of genuine fellowship.

The League pledge is very valuable. We can well use these covenants in service more fully. Join together in service. Promise each other to be faithful in daily prayer, in testimony in the church meetings, to invite others to Jesus. Pledge and perform.

Tap, tap all day at the machine until the head throbs with every tap. And when the machine stops for the day the throbbing still goes on. More than any other class of women the large army of women clerks needs to

closely watch the health of the organs peculiarly womanly. For the general health will be disturbed just in proportion as the local health of the delicate, womanly organs is disordered. With irregularities there will come pains in the head, the back or side, nausea and general misery. The happiness of the future life of the wife and mother may be entirely ruined by neglect of the health at this critical period.

Women confined in offices, shut out from necessary exercise will find a faithful friend in Dr. Pierce's Favorite Prescription. It so regulates the womanly functions and so strengthens the delicate organs that pain from these causes will be absolutely done away with and future health be perfectly assured.

There is no opium, cocaine or other narcotic in "Favorite Prescription." Neither does it contain alcohol, whisky or other intoxicant.

"I was so weak I did not have breath to walk across my room," writes Miss Isibell Miller, of New Providence, Calloway Co., Ky. "My periods occurred too often and the hemorrhage would be prolonged and the loss of blood very excessive. I also had spells which the doctor said were fainting fits. I could not tell when they were coming on but they left me very weak. My stomach would cramp until I could not straighten. This would last for several hours. I did not gain strength from one month period to another; was very weak and nervous all the time. I was advised by a kind friend to try Dr. Pierce's Favorite Prescription, which I did and before I had taken two bottles of it I could work all day. I took in all six bottles of the 'Favorite Prescription' and about five bottles of Dr. Pierce's Pellets. I used no other medicine. I have never had a return of this trouble since, and never can praise Dr. Pierce's medicines enough, for I know they saved my life."

EPWORTH LEAGUE.

Topic For the Week Beginning Dec. 31, "The Heavenly Record"—Text, Luke x. 20; Rev. iii. 1-5.

"Rejoice because your names are written in heaven."

It is a common figure of speech in the Bible, that of record books in which the actions of men are written down and preserved by God and that from these documents the future destiny of each person shall be determined. Perhaps it refers to the custom in oriental lands of having a court historian or chronicler, who preserved in writing the notable events of the times and noted the names of those deserving special remembrance and reward because of eminent service given the king.

The idea is expanded in the book of Revelation and assumes a very poetical form with dramatic force. Malachi closes the Old Testament canon with a similar declaration of a book of remembrance in which God's chosen ones are recorded for reward.

The closing year emphasizes the thought of our past life record. What has it been? With all of us the message of the Spirit to the Lord's church should sound warning: "I have not found thy works perfect before God. Be watchful and strengthen the things which remain, that are ready to die. Hold fast and repent."

Warning and Promise.

"Tis greatly wise to talk with our past hours."

This is the time when men take account of stock and figure up gains and losses. He who never strikes a balance sheet may get a living, but can scarcely expect to make much success in business. Men need to reckon up at times and see how their investments are paying. If some ventures are failures, close them out. Beware of similar things in future. What pays well increase and take care of. We must be warned by the past. We need at this time to consider seriously what our course in life is yielding. What way does it shape and tend? "If thou shalt not watch, I will come on thee as a thief, and thou shalt not know what hour I will come on thee." That warning sounds as sternly as when spoken to the Sardinian people. It applies to us. Again, the promise is equally firm. "He that overcometh, the same shall be clothed in white raiment, and I will not blot out his name out of the book of life, but I will confess his name before My Father and before His angels." It will pay to overcome, but is folly to be overcome. We have been sufficiently warned. Let us take heed!

THE EVENING NEWS REVIEW.

15TH YEAR. NO. 172

EAST LIVERPOOL, O., SATURDAY, DEC. 30, 1899.

TWO CENTS

KAFFIRS FIGHT BOERS

Natives Occupied Strongly Fortified Ridge.

BURGHERS CARRIED POSITION.

Lost Three Killed and Five Wounded. Boers Reported Attack by British on Fort Near Mafeking, With 55 English Loss—Other War News.

PRETORIA, Tuesday, Dec. 26, by way of Lourenzo Marques, Thursday, Dec. 28.—Commandant Swart reports from the laager at Alowyns kop, near Zeerust, that he had an engagement on Friday, Dec. 22, with Kaffirs in the neighborhood of Derdorpoort. The Kaffirs occupied a strongly fortified ridge and were well prepared for emergencies.

After heavy fighting the Burghers captured the Kaffir position, losing three killed and five wounded.

PRETORIA, Tuesday, Dec. 26, by way of Lourenzo Marques, Thursday, Dec. 28.—Commandant Snymann reports as follows from Molopo:

"On Monday morning the enemy from Mafeking attacked one of our forts in force, with cannon, Maxim, an armored train, and so persistently that there was fighting right on the walls of the fort. But we have remained our fort. The British loss is reported as 55."

The other commandoes report "all quiet" with the exception of the usual bombardment of Ladysmith.

General Lucas Meyer has recovered and returned to the front.

LONDON, Dec. 30.—The Marseilles correspondent of the Daily Mail telegraphed the substance of an interview with the Russian General Gourko, eldest son of the famous Gourko, who was about to start for Pretoria, who said in part:

"I have been offered the command of a Boer army corps. In my own mind I am absolutely confident of the success of the Boers. You may take my word for it that thousands of Russians are now fighting under General Joubert."

The text of Colonel Baden-Powell's proclamation to the Burghers besieging Mafeking, the gist of which has already been cabled, came from Lourenzo Marques. After asserting that the republicans cannot hope for foreign intervention, and pretending to relate the exact attitude of all the European powers, including Emperor William who, the colonel said, "fully sympathizes with England," Baden-Powell made the extraordinary statement that "the American government has warned the others of her intention to side with England should any of them interfere."

Advices from Cape Town, dated Dec. 24, said an investigation showed that the reported disaffection among the Dutch in the Victoria West district had been overdrawn. The farmers, it was pointed out, were mostly landowners and would not risk the loss of their farms by rising.

A dispatch from Lourenzo Marques, dated Dec. 23, said a curious story was current, emanating from Boer sources, that Matt Steyn, brother of the president of the Orange Free State, and 300 Free Staters had definitely refused to continue the war. Matt Steyn, acting as spokesman of the party, was reported to have told the president that he was only authorized to intervene in the interest of peace, and that the Burghers did not feel they were bound by his "unwarrantable conduct," especially as they ran the risk of the confiscation of their property, and they simply desired to be permitted to farm in peace and proposed to immediately return to their farms.

PIETERMARITZBURG, Wednesday, Dec. 27.—A dispatch from Ladysmith, dated Dec. 22, said:

"The Boers have mounted another howitzer on Surprise hill, replacing the gun captured in the sortie of the rifle brigade. While they watch us nightly with a searchlight and bombard the place daily they show no signs of assaulting the town. They probably think they can starve us out, but we have plenty of provisions."

"The total casualties since the siege began are 70 men killed and 235 wounded."

PRETORIA, Dec. 25—Monday.—General Schalk Burger reported, under date of Dec. 23, that trains were running to Colenso, indicating that the Boers had built a connection around Ladysmith.

General Cronje reported from the Modder river, Dec. 24, that the Boers captured two British forts at Kuruman, Dec. 17.

It was rumored that General Methuen's big naval gun had exploded.

LONDON, Dec. 30.—A war office dispatch from Colonel Baden-Powell, dated Dec. 12, after announcing that Lady Sarah Wilson had arrived safe and well at Mafeking, added that the bombardment and musketry fire continued daily on all sides and that the health and spirits of the garrison were very satisfactory.

KIMBERLEY, Friday, Dec. 22, via Modder river, Wednesday, Dec. 27.—Before noon today a detachment of the mounted forces, with artillery and light infantry, moved out in a westerly direction. Boer artillery from Kamperdam opened fire at Otlos Kopje, Kimberley fort replying with twenty shells.

The British force reconnoitered outposts along Lazaretto ridge, the Boer patrols retreating.

Having accomplished this and having discovered Boer reinforcements approaching from Wimbledon ridge, Colonel Chamer, with the Royal artillery, exchanged a dozen shells as soon as the guns could be limbered up. Some 500 Boers poured in a heavy fire from their earthworks, the British finally retiring with the loss of one horse.

The movement showed that the Boers were still keeping their guns in the vicinity of Kimberley and were able to summon reinforcements rapidly. It also showed their propensity to vacate a position immediately when weaker than the opposing force.

LADYSMITH, Dec. 24, via Pietermaritzburg.—General White has had a slight attack of fever, but he is now convalescent.

The Boer shell fire has been very damaging recently. On Friday one shell killed six men and wounded nine. The same missile killed 14 horses. Another just missed the Fifth Lancers' lines, slightly wounding six officers. Several shells have fallen close to General White's house, compelling the removal of headquarters to another point.

LONDON, Dec. 30.—The Times publishes the following dispatch from Chieveley camp, dated Dec. 28:

"Parties of Boers approached today within three miles of Chieveley camp, threatening our watering parties, who are compelled to go some two miles owing to the scarcity of water."

"It is reported that the Ladysmith garrison made a sortie on Thursday and captured a hill."

CAPE TOWN, Dec. 30.—A dispatch from Craddock reported heavy firing in the direction of Stormberg. It was supposed this was connected with General Gatacre's attempt to reopen communication with the Indwe collieries.

LONDON, Dec. 30.—A dispatch received by the war office dated Cape Town Dec. 28 said there was no change in the situation so far as Generals Gatacre and French are concerned.

The war office received a dispatch from Cape Town, dated Dec. 28, containing the following: "The Indwe colliery line is now working again."

MORGAN PEOPLE CONTROL.

Secured Upper Hand In Hocking and Sunday Creek Valleys Coal Situation.

COLUMBUS, Dec. 30.—A telephone message from New York gave information on the Toledo and Ohio Central-Hocking Valley deal and set at rest all question that the Morgan interests have secured control of the coal situation in the Hocking and Sunday Creek valleys.

The message, which is from one of the high officials in the deal, gave the election of officers for the Toledo and Ohio Central and the Kanawha and Michigan railroads, control of which has just been secured.

Decatur Axtell was chosen president of the Toledo and Ohio Central, N. Monsarratt first vice president and Chas. C. Hickox second vice president. N. Monsarratt, president of the Hocking Valley railroad, was chosen president of the Kanawha and Michigan, Decatur Axtell first vice president and Ralph W. Hickox second vice president.

Some time next week it is expected that the newly-elected officers will go over the Toledo and Ohio Central on an inspection tour.

To Help the Boers.

PHILADELPHIA, Dec. 30.—Over 400 delegates representing 90 divisions of the Ancient Order of Hibernians of Philadelphia, with a total membership of 20,000, held a secret meeting in industrial hall for the purpose of taking some action with a view to helping the Boers in their war with Great Britain. It was said that delegates would be assessed \$2.50 apiece to send hospital ship to Boers.

TO PROTECT LIBERIA

Probable Mission of Cruiser Montgomery.

ALSO TO LOCATE COALING STATION

Asserted in London That the United States and Great Britain May Ask France to Define the Boundary—Bradford Urged Coaling Stations.

LONDON, Dec. 30.—It was learned that the United States cruiser Montgomery's visit to Liberia was apparently the result of overtures made to Washington by that republic. Though the British government was said to be in ignorance of the purpose of the Montgomery's mission, the establishment of a coaling station in Liberia by the United States was regarded as scarcely probable, as, it is asserted, no Liberian port has any facilities for coaling, all of them being open and surmounted.

The Associated Press representative learned, however, that a far more important step was under consideration. It consisted in a joint request of the United States and Great Britain upon France to define the boundary between the territory she claims and that claimed by Liberia. This step was not yet decided upon, but Great Britain

THE NEWS REVIEW

Won very earnest commendation from National, State and County Republican Headquarters for services rendered the Grand Old Party during the late political battle in Ohio.

The NEWS REVIEW stands in line with Republicanism, the Workingmen of the Nation and Good Government. We fling our flag to the breeze and proclaim our principles. We believe in true Unionism—a fair day's wage for a fair day's work. We will do battle royal for Republicanism in 1900. Our choice as standard bearer is WILLIAM MCKINLEY, of Ohio.

only awaited the United States assent to become a party to such a request.

It was alleged that France, for many years, has been encroaching on Liberia and it was only by a strenuous protest of the United States that she was prevented from appropriating a large slice of Liberia in 1892.

According to the Hon. Arthur Ponsonby, managing director of the Liberia rubber syndicate, which recently guaranteed the interest of Liberia's public debt, the Montgomery's visit was probably prompted by a desire to ascertain the extent of French activity. Mr. Ponsonby said in part:

"Bishop Hartzell, while in Monrovia this year, strongly urged the government to interest the United States in preserving the boundaries, with the result that Liberia appointed a mission to Washington. I believe it has already made representations, and presume the commander of the Montgomery investigated both this and the possibility of a coaling station."

WASHINGTON, Dec. 30.—As to the real objects of the Montgomery's cruise, it was believed that the navy department had its eye upon a possible coaling station on the west coast. Before and during the civil war the United States had no less than three coaling stations on that coast. They were practically abandoned when the West African station was dropped from the list, but the chief of the equipment bureau, Admiral

Bradford, has strongly urged that they be re-established, so as to insure our naval vessels a source of coal supply when passing from the eastern Atlantic states around to the Philippines and China, in the event that the Suez canal should be closed against them. The Liberian government always has been willing, and even anxious, that the station on its coast should be kept up, it only as a manifestation of the interest of the United States in the colony it created, and to protect it by our moral influence against European aggression.

DEATH OF FATHER MALONE.

He Was a Staunch Unionist During the War of the Rebellion.

NEW YORK, Dec. 30.—Rev. Sylvester Malone, pastor of the Roman Catholic church of Saints Peter and Paul, Brooklyn, and a member of the board of regents of the University of New York, died, aged 79 years. He had been in failing health for some time past and took to his bed about three weeks ago.

In 1854 Father Malone visited Europe, and while there witnessed the council of bishops which Pius IX convened at Rome for the purpose of proclaiming the dogma of the immaculate conception. While he was absent a mob, stirred by the political and religious passions which then fermented Williamsburg, attacked his church and would have burned it but for the prompt interference of the authorities. At the beginning of the Civil war Father Malone hoisted a Union flag on his church spire and there it remained until it was taken down in order that it might be carried to the front by Williamsburg men. It was replaced by another flag which the citizens presented. All through the war he labored ardently in behalf of the Union cause, contributing generously both in money and exertion.

MAY NEVER BE SAME MENTALLY.

But the Physician said Boutelle Might Recover Health.

BOSTON, Dec. 30.—To those who inquired after the condition of Congressman Boutelle at the McLean asylum the reply was that he was getting along nicely and was improving in strength. Dr. Daniel A. Robinson, the physician who came from Bangor to attend him after he was stricken at Young's hotel said that while the congressman may recover his physical health and vigor, it is possible that he may never be the same again mentally.

The commissioner received the certified list of the civil service showing that Mr. Crocker had a percentage of 97.30. The new chief is a nephew of Richard Crocker.

WHITSELL GOT TRACK OF ENEMY.

He Was Unable, However, to Bring on an Engagement—Colonel Hare, Following a Party of American Prisoners, Lost Track of Them.

MANILA, Dec. 30.—The insurgents who evacuated the coast towns between Dagupan and Vigan, fleeing to the mountains before the advancing Americans, returned in small bands to the towns the Americans do not occupy, terrorizing the natives and Chinamen who showed friendship for the Americans. The natives and Chinamen sought the protection of the American garrisons.

Colonel Whitsell's cavalry, while scouting in the vicinity of Trinidad, found evidence of Filipino soldiers being in that vicinity, but it was impossible to bring about an engagement.

The recent increase in the garrison of Nampagan, against a threatened rebel attack on Christmas day, averted trouble.

Colonel Luther R. Hare of the Thirty-third infantry, who had been following a party of American prisoners, lost track for about three days, Dec. 20, of such signs and evidences of their passage that they customarily left behind them. It was thought the prisoners were separated and conveyed to remote parts of the mountains. This probably increased the difficulties of General Young's troops to effect a rescue.

General Wheeler, who was recently in Manila requesting an appointment south in the line of the expected campaign, was at Panique.

WASHINGTON, Dec. 30.—The adjutant general received a cable message from General Otis containing the following:

"MANILA, Dec. 29.

Adjutant General War Department, Washington:

"Colonel Lockett with regiment, two battalions Forty-sixth (Colonel Schuyler); one Forty-fifth (Colonel Dorst) and company Twenty-seventh infantry, two guns, Captain Van Dusen, attacked enemy 600 strong on mountain stronghold beyond Montaban, northeast San Mateo. Large number killed and wounded; 24 taken prisoners. Lockett captured one cannon, 40 rifles, 20,000 rounds ammunition, 500 pounds powder, arsenal fortifications, all food supplies, and considerable other property. This captured point located on mountain trail and formerly supposed to be impregnable. Our casualties Lieutenant Enslow, Eleventh cavalry, and five enlisted men wounded, mostly slight. Private Matson, Forty-fifth infantry, drowned. Otis."

ONE KILLED IN A WRECK.

A Heroic Brakeman Cut Off His Own Leg to Get Free.

DENVER, Dec. 30.—The Cheyenne flyer on the Union Pacific railroad crashed into the Boulder valley train at Brighton, Colo. One man was killed and eleven persons injured. William Rundleman, baggage man on the Cheyenne train, was killed.

Fred Lewis, brakeman on the Boulder valley train, was making a coupling when the collision occurred. He was thrown down and a wheel ran upon his leg, pinning him down. His cries for help were not heard, and he drew a knife from his pocket, cut off his leg and crawled from under the car. His recovery is doubtful.

Must Not Recruit For Boers.

CINCINNATI, Dec. 30.—Monsieur Pierot was arraigned before United States Attorney W. E. Bundy on a charge of violating the laws of neutrality. M. Pierot has been known as a recruiting officer here for the Boers for some time. Monsieur Pierot said he did not enlist the men. He simply looked at them and sent them to Oom Paul's nephew, Von Altow, who is in Cincinnati. Colonel Bundy, however, warned Monsieur Pierot and read to him the law.

SUBURBAN NEWS.

A NEW INDUSTRY

MAY BE ESTABLISHED IN ON THE NEW CHESTER POT-
THE SUBURB.

Many Residents on the Sick List. Free Methodists Will Inaugurate
Entertained by F. F. F. Series of Revivals Tomorrow Evening.

Arrangements are being made by McCain Brothers, the coopers, which, if carried out according to their present plans will give the city another industry. It is their intention to convert a portion of their stave mill at the power house into a saw mill. On Thursday they were in Pittsburg arranging to get logs and other quotations. Should their plans be carried out employment will be given a number of extra workmen and an addition will have to be built to their present plant. A slide from the river to the mill under the street railway tracks will also be constructed.

AMONG THE SICK.

A Large Number of Suburbanites Under the Care of a Physician.

The East End physicians yesterday reported a new list of sick people in that part of the city, which follows: Robert Finley, of St. George street, and Mrs. John Tinson, of First avenue, are ill with grip, while August Croft, of Mulberry street, and Robert Kelly, of First avenue, are suffering with pleurisy. Mrs. Benton Grosshans, of Helana, has the grip, and Nettie, the 18 year old daughter of Mr. and Mrs. Daniel McKinnon, of Elm street, is suffering with an attack of typhoid fever. A son of Albert Hays, of Pennsylvania avenue, is ill with stomach trouble, and Mrs. John Foster, of Dixonville, is reported ill. Grandmother Riley is ill at the home of her son Edward, on St. George street, and is in a helpless condition.

They Entertained

The Misses Elizabeth and Annie Martin entertained a number of friends, at their home on Pennsylvania avenue, Thursday evening.

The Four F's club, composed of prominent East End ladies, and their gentlemen friends, were pleasantly entertained by the Misses Lulu and Bessie Hanley, at their residence on Pennsylvania avenue, near Mulberry street.

Digging Wells.

The carpenters who reside in East End and who have no work to do at present are employing their time in digging wells. John Grant is digging one in his yard, and William Campbell is digging two on his property. Contractor John Schmelzenbach is also digging a 60 foot well on his property in the Wise addition.

Made Some Changes.

The street railway company has made a few changes in the car barn at the power house. A partition has been erected in the middle of the barn and a door has been placed on the south side of the building.

Erecting Telephone Poles.

The new telephone company will finish their work of erecting poles in a few days. Yesterday they erected poles in Virginia and have just a few streets yet to work.

The Bell Repaired.

The electric danger bell at the Mulberry street crossing that has been out of order for several days has been repaired.

Personals.

Miss Jessie Smith, of Chicago, is a guest at the home of her brother, John C. Smith, of Pennsylvania avenue.

Will Close the Office.

The postoffice will be closed Monday during the same hours as it was Christmas day.

STOPPED WORK

Work on the Chester pottery has been suspended. The stonemasons have stopped work on account of the weather, and a little less than one-third of the foundation has been finished. Contractor Kerr stated yesterday afternoon that work would not commence again until warmer weather sets in.

The grading of streets in the land company's addition is progressing favorably, although the weather is interfering with all improvements being done on the Virginia side of the river.

CHESTER'S LOSS.

South Siders Working at the Mill Have Been Laid Off For a Time.

Manager Oliver Bergman, of the Chester Rolling Mill company, stated last evening that work on the mill was practically suspended and only the men employed erecting the stacks on the furnaces were working. This means considerable loss to Chester from a financial stand point. The mill men, the majority of who live in Chester, and the two weeks' pay of the mill amounts to several thousand dollars. Chester people hope the railroad will soon be finished as it means much to them.

REVIVAL MEETINGS

May Be Started In the Free Methodist Church Tomorrow Evening.

If the arrangements can be completed a series of revival meetings will be started in the Free Methodist church in Chester tomorrow evening. Miss Crill, who has been in Hookstown for the last three weeks conducting revival meetings, is expected to complete her work this evening. Arrangements are also being made to have Free Methodist ministers from other places assist at these services, which will last indefinitely.

A Cold Store.

In Chester there is a store that is as cold as a barn and the proprietor admits that the statement is true. There is no place for an outlet to a stove pipe and a small oil stove is kept burning night and day. This is insufficient to keep the room warm and the clerk is compelled to wear his overcoat and ear muffs in order to keep warm.

Free Methodist Pilgrims.

Today the following persons arrived in Chester to spend a few days, attending the proposed revival services: Charles Phillips, of New Castle; Annie Stockberger, of Rochester, and Maggie Barrett, of New Brighton.

Personal.

Mrs. Charles Mackey is spending several days with friends at Neil's station, Pa.

HOW IT'S BACKED.

Undoubted Reliability Is Expressed In East Liverpool Endorsement.

What you want is home endorsement. The backing of people you know. East Liverpool proof for East Liverpool people.

That's what follows here. Surely no better backing can be had than the following from

Mrs. Edmund Parton, of 233 Ravine street, says: "I had backache, head ache and other symptoms of the complaint for two years. When the last attack came on I went to the W & W. pharmacy and got a box of Doan's kidney pills. In a very short time I was relieved. My husband, who is a painter, decorator and paper hanger of the firm of Parton & Jackson, was seized with a severe attack of kidney complaint. Some years ago he contracted a fever which left his kidneys in bad shape, and ever afterwards he had more or less trouble. When suffering last a gentleman advised him to try Doan's kidney pills emphasizing the facts that he had been a sufferer with kidney disease, confined to his bed; his physician informed him that perhaps he would be able to get him up in two or three weeks that he used Doan's kidney pills and in a day or two he was able to be up and about his business. My husband got a box at once. They were prompt in relieving him. We can heartily recommend Doan's kidney pills."

Sold for 50 cents per box by all dealers Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

AN ERROR CORRECTED.

Many newspapers and people are un-
der the impression that Consul Macrum
left Pretoria before being granted leave
of absence, and this error was repeated
in some of the press dispatches yester-
day. On the contrary Mr. Macrum did
not leave Pretoria until December 18,
barely two weeks ago, when he was re-
lieved, under instructions from the state
department, by U. S. Consul Hollis from
Lorenzo Marques. He did not "run
away." As to his reasons for returning
on leave of absence, no one but himself
can say, but he will no doubt explain all
in detail when he arrives in Washington
the latter part of January.

NOT MUCH CHANCE.

Despite Representative Doveney's
hope that congress will pass the river
and harbors appropriation this session,
Congressman Burton, of Cleveland,
chairman of the committee, insists that
it will be impossible. A combination
has been formed by Southern representa-
tives, of both parties, desirous of local
grants, to force the passage of the bill,
but well informed Washington cor-
respondents say it will scarcely succeed.
Previous experience has shown that it
takes the hardest kind of work to get
the bill through, and it may be as well
for East Liverpool people interested in
the proposed dam at Walkers, not to
build any great hopes of favorable
action this session. Congressman Tay-
ler, as Representative Doveney says,
has already taken an active interest in
the measure, but in common with his
colleagues speaking similar advantages
for their districts, will likely have to
wait for a more favorable opportunity.
In the meantime there should be no
slacking of effort on the part of those
interested. It's only a question of time
and hustle will bring it.

On His Return--Is No Coward and Did
Not Run Away--Either One of Two
Things Alone Have Influenced Him,
Says the Representative.

WASHINGTON, Dec. 30.—Representa-
tive Tayler, who was responsible for the
appointment of Consul Macrum at Pre-
toria, in discussing the case said:

"I am familiar with Macrum's tem-
perament, and I know that there can be
no truth in the charge of cowardice.
Either one of two things influenced him.
He feared for the safety of his wife and
children in the case bombardment
should occur, or else he is the bearer of
messages so important that they could
not be entrusted to the mails or the
wire."

Mr. Macrum also represented some
American mining interests in the Trans-
vaal.

Tuesday Evening.

"My Friend From India" is a ver-
itable trap for laughter. Those who
attend its production at the Grand on
Tuesday evening, may be as serious
minded as they like, but will find them-
selves tripped up into a cauldron of
seething, sizzling fun. On a still night
during the last few months, one could
almost hear the echo of the laughs that
went up from the metropolis where the
play had a long run.

The Famous South Africans

ing, Jan. 8, as a benefit for the hospital
fund. There was a decided demand for

their entertainment.

Wine of Cardui

It isn't necessary for a woman to give particulars. When she says
she has "female troubles", other women know what that means. It
means days and nights of endless suffering. It means headaches which
no tongue can describe. It means that terrible bearing and dragging
down in the lower abdomen. It means agonizing backache, and shoulder
ache, and arm ache, and aches in the lower limbs. It means nerves on
edge—the blues—despondency and loss of hope. It means debilitating
drains that the doctors call leucorrhoea. It means martyrdom—some-
times even death seems preferable. And still Wine of Cardui will utterly
put those diseases and pains to rout. It has cured thousands of cases
when nothing else on earth would. To the budding woman, to the
bride, to the wife, to the expectant
mother, to those going through
the Change of Life, this Vegetable Wine is a blessing.

THE OFFICIAL REPORT

Of the Meeting of the Manufacturing Potters

HELD YESTERDAY AFTERNOON

News of the Industry of Interest to East Liverpool People—Condition of Trade. Affairs of the Union Pottery Company.

At the meeting of the United States Potters' association held in the Potters' club rooms on Fifth street yesterday afternoon, the association ordered President W. E. Wells to make the following statement to the public regarding the work the association has done since its reorganization a month or so ago.

The meeting was called for the purpose of comparing the work of the western and eastern committees, that have been for some time engaged independently in revising the selling lists for 1900. The lists submitted were found to be practically uniform and were officially adopted after some slight alterations. The lack of a generally accepted selling scale has resulted in some confusion during the past year, and it has been the duty of the committees to prepare a satisfactory uniform base scale. The idea of the association has not been either to advance or reduce prices, but to settle upon an equitable basis for the different classes of ware, maintaining a proper differential between O. C. and granite, and between granite and porcelain ware.

The date for the next meeting of the United States Potters' association was also discussed, but no decision was reached, further than it is to be held in Pittsburg sometime in January, subject to the call of President C. W. Franzheim, of the Wheeling Pottery company.

EMPTY WAREHOUSES.

Orders Overlapping Into 1900 and Numerous Inquiries Being Received.

The Crockery Journal says: "The potteries all closed Saturday evening. Some of them started up again Tuesday and Wednesday, and are in regular operation this week and will only close again for New Year's day. There are a good many unfilled '99 orders that potters are anxious to get off their files before the regular January trade sets in actively. Less repairs will be needed this holiday season than usual, owing to the various improvements and reconstructions made during the year. The plants generally are in better condition at the close of this year than they have been in former years, and the stocks of all are at the lowest possible point—in fact, with the exception of some broken assortments, the warehouse bins are completely empty. Without orders for the next thirty days the potteries could be advantageously employed in completing assortments of leading staples. With empty warehouses, with orders overlapping into 1900, and with numerous inquiries, nothing seems lacking for the greatest prosperity, if prices are reasonably adjusted."

AWAITING PRICE LIST.

Numerous Orders Being Held Until Schedule Is Definitely Announced.

A few buyers have presented themselves the past week and inquiries by letter continue numerous for next year's trade. It has become necessary to accept more or less specific orders for shipment within the next sixty days, and quite a number have been placed at the November schedule, we are informed. No large orders, however, extending into the new year for regular

spring trade have yet been booked. These are awaiting the settlement of the selling list under consideration, which is expected to be completed this week.—Crockery Journal.

UNION POTTERY.

Trade Journal Speaks of the Condition and Prospects of the Plant.

The Union Co-operative pottery has been closed the past week to complete the inventory of its property and enable Receiver Warner to make the necessary report to the court for his successor, A. J. Cartwright, who will take possession next Monday. The Union has done a satisfactory volume of business under Receiver Warner and has fully maintained its good reputation for the quality of its ware. It needs a reorganization on business principles, with additional capital so that the necessary improvements and additions can be made to enable it to work advantageously. Additional warehouses, working departments and kilns are needed. Several of its operatives are working elsewhere during the shutdown.—Crockery Journal.

NOTES OF THE PLANTS

And Other Items That Will Interest the Pottery Trade.

The clay hands at the Akron pottery presented Joe Barker with a toilet set and rocker. The kiln hands gave Charles Wickline a meerschaum pipe, and the decorators gave Levi Jones a smoking jacket and muffler.

The American Federation of Labor convention passed a resolution endorsing a union label on all pottery and promising to give all assistance to advance the sale of such ware. Now the time is ripe for the adoption of a label by the Brotherhood, and we are reliably informed that the new year will not be far advanced before the union label in the pottery trade is a fact.—Commoner.

Germans are said to have been in correspondence with Secretary Brunner, of the North Carolina board of agriculture with a view to locating a pottery in the western part of that state.

The Hawthorn Pottery company, of Hawthorn, Pa., was chartered this week at Harrisburg with \$20,000 capital, to manufacture and sell pottery.

Local No. 30, Akron, elected the following officers at its last meeting: President, James Wilson; vice president, Charles Deitze; recording secretary, T. J. Mumford; financial secretary, William Wickline; treasurer, John Joblin; inspector, Jerome Stanley; inside guard, William Donnelly; trustees, John Joblin, Milo Hart; delegates to Central Labor union, T. J. Mumford, William Wickline, John Tracy, Jacob Huscroft.

J. T. Croxall has moved to the O. C. Thomson Pottery company, where he has charge of their decorating department.

Prof. Charles F. Binns, the head of the Toronto Art school, is being talked of as the representative of the potters at the Paris exposition.

The Arsenal pottery, of Trenton, N. J., is being offered for sale "on easy terms and at less than one-third of its original cost."

F. W. Fowler, of the American China company, Toronto, spent a few days in New York last week.

Patrick Carr, a kilnman at the Kokomo pottery, had his ankle broken last week by falling from the large steps in a kiln.

Duchess of Sutherland's striking story, "One Hour and the Next," a great many of the characters are potters and the pottery district forms the scene for most of the plot.

During the holiday season several improvements are being made to the office of the East Liverpool Pottery company's plant. About 20 feet of the west end of the warehouse is being taken in as an office and sample room. The ware which occupies this space will be removed to the new addition of the warehouse.

THE WAY TO PROPOSE.

What the Maiden and the Matron Had to Say About It.

"I never could accept a proposal from a man unless the conditions were just right," said the romantic maiden thoughtfully.

"Of course not," replied the matter of fact matron. "He must be the right man in the first place, and he must propose in the second. Those are the conditions that must be always just right before any sensible girl will think of marriage."

"Oh, I don't mean that," returned the maiden. "He must know how to propose. Do you know, I believe if I were really in love with a man and he didn't propose properly I should reject him."

"When it comes to proposals of marriage," replied the matron, with decision, "any way is the right way."

"Oh, no, it isn't," asserted the maiden. "The surroundings must be appropriate. Everything must be in harmony. If my Prince Charming proposes to me in the house, he must be in a dress suit, and he must be earnest but dignified. There must be a certain ease and elegance of manner, and his words must conform to his actions. If he proposes to me in the woods or on the lawn, he may be in negligee attire, outling costume or something like that, and he may then be more impassioned and vehement in his declarations. But I never could accept a man in negligee costume who proposed in the house."

"Don't you be too sure about it," returned the matron.

"Oh, but I am," said the maiden. "I have figured it all out very carefully. The scene must make a perfect picture. It would just kill the romance if it didn't, and I couldn't possibly accept him. And his words and tone! Both must breathe love and yet be in conformity with all the surroundings."

"I've known lots of girls who thought that," said the matron reflectively. "And it didn't happen that way?"

"No; hardly."

"But in your case?"

The matron sighed. "I had the same idea," she said at last. "I pictured some quiet nook, the birds twittering, the sun shining brightly and all the world joyous as he poured well rounded sentences throbbing with love into my ear. Or else I saw him sinking on one knee in front of the divan upon which I was sitting and looking me straight in the eyes with a long, lingering look of love, while he said: 'Oh, adorable one, be mine! Say that this is not to be a world of Stygian darkness for me, but that the sunlight of true love shall shine ever brightly as we go through life hand in hand!'"

"Oh, beautiful! Lovely!" cried the maiden. "That's just the way I've pictured it. And when your Prince Charming did come what did he say?"

The matron sighed again.

"He was taking me home under an umbrella in a rainstorm," she explained. "I was wet, and he was wet. My hair was stringy, and there was mud on his trousers, and we were altogether two of the most unprepossessing looking mortals you ever saw. When he was about to leave me at the door, he suddenly exclaimed, 'Say, I'd like to carry that umbrella over you all the time.'"

"What? I said in some surprise."

"Oh, to put it in plain words," he said, 'let's get married. How about it?'"

"How dreadful!" exclaimed the maiden.

"Wasn't it?"

"Such an inappropriate place and time!"

"Yes, indeed."

"And such prosaic words!"

"Most prosaic."

"Oh, I couldn't accept a man under those circumstances."

"If he was the right man, you would, nevertheless."

"Oh, I couldn't do it possibly," protested the maiden. "I'd feel that I'd lost half my life. Why, in a case like that he couldn't even fold you in his arms and all that when you said d—"

"Wait a minute," interrupted the matron. "Not so fast. You'll know a lot more about men than you do now when you accept one, no matter how, when or where it may be. There are some features of the occasion they never overlook, but don't you build your hopes too high on everything else being in harmony."—New York Sun.

WHITE TO THE FRONT

Compels One Man to Care For His Horse

AND SERVES NOTICE ON ANOTHER

The Officer Is Taking Some Interest In Humane Work, and Is Doing Some Good. A Live Humane Society May be Organized.

Officer White last evening received word that the horses of Zeke Moore were still standing tied to a fence in the West End. The officer went down to see Zeke, and told him the horses must be sheltered at once. Zeke said he had a stable and would care for the horses in the proper way, and the officer will see that he does.

The officer then continued his humane work. Numerous complaints have been filed about a driver for the Adams Express company abusing the horse he drives, and also that the horses used here are too small for the work they have to do. Officer White notified Agent Gillan, who stated that he was going to his home in Springfield this evening and would report the matter to the superintendent. The officer is determined some step shall be taken in this matter and the driver and company may be prosecuted.

A movement is now on foot to organize an energetic humane society, to see that all cases of cruelty are prosecuted.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning Dec. 31—Comment by Rev. S. H. Doyle.
Tonic.—The heavenly record.—Luke x, 20; Rev. iii, 1-5. (A New Year's meeting.)

The references in these passages are to the "book of life," an expression of frequent occurrence in the Scriptures. In its figurative use in the Old Testament it is the register of the covenant people. There and elsewhere it also refers to the list which God keeps in heaven of those who are His, whose names, as it were, are written in a book, giving them a title to eternal life. "It contains a list of the righteous and insures to those whose names are written therein life before God first in the earthly kingdom of God and then eternal life also." It is the record book of God, in which He keeps the names of those who are faithful and true to Him in Christ and from which He blots out the names of all who are unfaithful to Him. The reference suggests that—

1. If our names are written in the book of life, it should cause us great joy (Luke x, 20). To the 70 on their return from their missionary tour and their report of their great power—that even devils were subject to them—Jesus said, "Notwithstanding, in this rejoice not that the spirits are subject unto you, but rejoice rather because your names are written in heaven." To have power over evil spirits for the good of mankind would certainly be cause for rejoicing, but how much greater cause for rejoicing is the fact that our names are written in this Lamb's book of life. That record tells us that we are saved—saved for time and eternity. It tells us that we are the children of God and that God is specially interested in us and exercises special care and control of us. If anything in the world can cause us joy, this fact should, and a joy that will manifest itself in gratitude to God and consecration to His service.

2. If our names are written in the book of life, our one aim in life should be to see that they are not blotted out. They may be blotted out. Moses prayed that his name be blotted out for the good of Israel, which of course could not be done. In Rev. iii, 5, Jesus says, "He that overcometh, the same shall be clothed in white raiment, and I will not blot out his name out of the book of life." This statement shows that it is possible for our names to be blotted out of God's book of life. What a sad catastrophe such a fate would be! If the chief joy of earth is in having our names written in heaven, who can describe the sorrow of having them blotted out? But, though they may, yet they need not be blotted out. If we overcome—overcome sin, overcome trial, overcome unbelief—they shall not be. And Jesus will help us so that we can overcome. He has overcome the world, and through Him we may overcome it.

Let us be faithful to God in Christ and keep our names in the book of life, for thus only can we enter heaven. "Then shall in nowise enter into it anything that defileth, *** but they which are written in the Lamb's book of life."

Bible Readings.—Ex. xxxii, 30-32; Eccl. xii, 13, 14; Isa. iv, 3; Dan. xii, 1-3; Math. xii, 36, 37; Acts xvii, 30; 1 Cor. iv, 5; Phil. iv, 1-3; Heb. xii, 22-24; 1 Pet. iv, 1-5; Rev. xiii, 8; xvii, 8; xx, 12-15; xxi, 27.

In the Shadow.

We must all go there sometimes. The glare of the daylight is too brilliant. Our eyes become injured and unable to discern the delicate shades of color or appreciate neutral tints—the shadowed chamber of sickness, the shadowed house of mourning, the shadowed life from which the sunlight has gone. But fear not. It is the shadow of God's hand. He is leading thee. There are lessons which can be learned only there. The photograph of His face can be only fixed in the dark chamber. But do not suppose that He has cast thee aside. Thou art still in His quiver. He has not flung thee away as a worthless thing. He is only keeping thee close till the moment comes when He can send thee most swiftly and surely on some errand in which He will be glorified. O shadowed solitary one, remember how closely the quiver is bound to the warrior, within easy reach of the hand and guarded jealously!—Rev. F. B. Meyer

The English Prayer Book.

The English Prayer Book is what it is to the English because it grew with that people, and it could ingrain itself in national character because it was in itself in some sense a product of national evolution from far-off Anglo-Saxon times. The history of the Prayer

Book reaches far beyond the First Book of Edward VI. The ancient parts of the liturgy are witnesses and, as it were, title deeds of the historic continuity of our catholicity and of English character.—Churchman.

BLACKBURN MAY WIN.

Anti-Goebelites Apparently Not United Against Him—Republicans Replied to Democrats.

FRANKFORT, Ky., Dec. 30.—The address of the Republican leaders in reply to the recent address of the Goebel leaders endorsing the contesting candidates on the Democratic state ticket was given out. It replies specifically to the Democratic charges of fraud and makes some sensational counter charges. It was signed by Governor Taylor, Chairman Barnett, Senator Deboe, Congressman Page and others, including all members of the state central committee. Though some of the anti-Goebel leaders are hounding hard to bring their forces against Blackburn as well as against Goebel, the anti-Blackburn movement does not appear to be strong; and, unless it can gather strength as a result of the tangle over the state contests, Blackburn will win for United States senator with the ease his managers have been claiming for him.

THE BUBONIC PLAGUE AT HONOLULU

From Report Received Wyman Did Not Consider Situation Critical.

NEW YORK, Dec. 30.—The following telegram was received by the supervising surgeon general of the United States marine hospital service from Surgeon D. A. Carmichael, at Honolulu, H. I.:

"HONOLULU, H. I., Dec. 20, via Victoria, B. C., Dec. 28, 1899.—There are two cases of reported plague at Honolulu. Two deaths Dec. 12. No new cases to Dec. 20. Quarantine against infection raised Dec. 19."

Surgeon General Wyman, in referring to the dispatch, said he did not consider the situation critical in any respect.

Sh. held to Be Court-martialed.

WASHINGTON, Dec. 30.—The war department accepted the challenge of Captain R. W. Shufeldt, U. S. A., retired, and has transmitted all the papers referring to the case of the officer to Major General Merritt for court-martial proceedings. Several days ago the adjutant general, by direction of the secretary of war, ordered Captain Shufeldt to place himself within the jurisdiction of the civil courts of Maryland, before which that officer was the defendant in divorce proceedings. He refused. It was said he kept away to avoid paying alimony.

May Join a Steel Combine.

SCRANTON, Pa., Dec. 30.—The stockholders of the Lackawanna Iron and Steel company voted in favor of increasing the capital stock from \$3,750,000 to \$25,000,000. It was said to be put the company in a position to take advantage of any opportunity that might present itself for bettering its condition. The general impression here is that the company is getting into shape to become a part of the big \$50,000,000 steel concern organizing in Buffalo.

Pingree Sent a Message.

LANSING, Mich., Dec. 30.—The house refused to adopt the senate's resolution to end the extra session at a certain time and voted to adjourn next Tuesday. In response to the defeat in the senate of his equal taxation amendment and in lieu thereof, Governor Pingree sent to the legislature a message urging the specific rates of taxation under which the railroads are now taxed be increased.

To Make a Fight on Trusts.

NEW YORK, Dec. 30.—Headquarters in New York of the Commercial Travelers and Hotel Men's Anti-Trust League were opened by William Hoge, secretary and treasurer of the league. Mr. Hoge said a vigorous campaign is to be urged among the different commercial travelers' associations and also among organizations of hotel men to organize them against trusts. A membership of about 12,000 has been enrolled.

One Brother Soon Followed in Death.

FARRISBURG, Dec. 30.—Nelson Lee, a well-known merchant and brother of State Senator D. S. Lee and Samuel Lee, who was buried Thursday, was found dead Friday in his shop. There was every indication that death resulted from heart trouble. The extreme cold weather is believed to have hastened his death. Lee was 76 years old.

A Boy Badly Hurt.

TITUSVILLE, Pa., Dec. 30.—Albert Mulvehill, aged 18 years, was caught in a revolving shaft at a tannery and received injuries which will prove fatal.

J. A. Andrews Died.

ELGIN, Ill., Dec. 30.—J. A. Andrews, the old time "watermelon man" of the Haverly Minsell company, died at the Elgin asylum, aged 64 years.

BUSINESS PROSPEROUS.

Don's Review Said It Was Thoroughly Safe in Spite of the Boston Failures.

NEW YORK, Dec. 30.—R. G. Dunn & Co.'s weekly review of trade issued today said in part:

No correct report of failures in 1899 can be made until the year has closed. A collapse of speculation in copper stocks has swelled the aggregate at Boston alone over \$1,000,000 within a few days, and might yet add to the record. The failures thus far reported are fewer in number than in any year since 1893, and smaller in amount of commercial liabilities than in any year since 1891. The aggregate of defaulted liabilities is \$123,160,000, or nearly two-thirds of the banking liabilities were added within a few days, the aggregate reaching about \$300,000,000. The commercial liabilities have been about \$200,000,000, though exact returns for a few recent failures are not yet obtainable. No other years except 1893, with defaulted liabilities of \$81,150,000, and 1891, with \$55,720,000, have failures been as small since the agency commenced quarterly returns in 1875. The average of liabilities per failure is less than \$10,000, the smallest in any year of the 25, a gratifying evidence that commercial liabilities are further removed than usual from the point of danger.

The week has been exciting only at Boston, where the failures growing out of speculation and the efforts to re-establish banks as a result of suspended have not given the week a holiday character. Yet general business is thoroughly safe and prosperous and no important firms have failed save some which were individually connected with concerns involved in speculation.

The speculative troubles come because the volume of legitimate business, and the unprejudiced distribution of profits in interest and dividends, make it no longer possible to carry some stocks on borrowed money. Prosperity itself placed a check on speculative ventures.

What and cotton speculation has taken a holiday, prices scarcely varying, and the movement of both is surprising and mild. The corn exports continue about as large as last year.

The industries are closing the most remarkable year of their history. Long established branches have undergone a veritable reconstruction, vastly increasing their capacity. While new in industries, which scarcely existed a year or two ago, have enlisted a vast capital interest in modes of business and of production in almost every direction and improved conditions for the future almost beyond calculation. Electrical developments in light, heat and power, in making catamaran works, performing wonders in production of materials and providing transportation all over the land, deserve special attention.

For such reconstruction the increase in demand for iron and steel products is the great feature of the year. With 41,735 tons unsold and 24,515 produced weekly Jan. 1, hindered by severe weather so that the output averaged 19,000 tons, but expanding in every month afterwards, the industry is now producing about 20,000 tons weekly, and unsold stocks are reduced to 12,292 tons, and yet orders unfilled will require six to nine months' work from most of the establishments. Prices have not changed the past week, though demand for some products improved a little. The average of prices closes 119.5 per cent higher than Jan. 1 for pig and 102.8 per cent higher for products.

Industries which depend on individual consumption have gained less, though more than population. Wool has been raised by speculation 10 per cent, but has been very largely consumed with great demand for goods, which have advanced but 17 per cent. Stocks now held are said to be 107,235,519 pounds.

Failures for the week have been 21 in the United States, against 25 last year, and 2 in Canada, against 12 last year.

DAWES ON PENDING PROBLEMS.

How the Trusts Should Be Regulated. The Philippines Policy.

SPRINGFIELD, Ill., Dec. 30.—Charles G. Dawes, comptroller of the currency, made a speech at the Republican state lovefeast in the assembly hall, which was regarded by many as outlining the policy of the administration on two points, the Philippine policy and the attitude of the Republican party toward trusts.

Speaking on trusts, Mr. Dawes said it was the duty of the Republican party to conserve public interests. Wherever trusts proved themselves inimical to the public weal they must be restrained and controlled, and if necessary laws passed that would so much encourage active competition as to bring about the disintegration of the trusts.

Mr. Dawes asserted that encouragement received from anti-imperialists had much to do with the prolongation of the war in the Philippines. He said that President McKinley would refuse to be turned from his course in regard to the Philippines by the protests of the anti-imperialists.

UNION LABELS.

It should be a deep-rooted principle of all union workmen and union sympathizers and particularly those members of the different organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others. And why not? If we ask fair wages for our labor, why should we buy goods made at unfair wages by others?

The Union Label in every industry is a guarantee of fair wages, decent working hours and union labor employed.

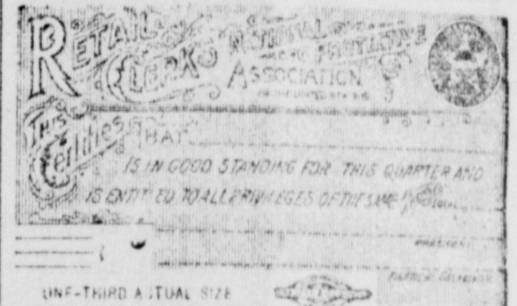

UNION PAPERS.

All Union papers of East Liverpool are known to the various craft and unions of the city by the printing of the above Union Labels at the head of their columns.

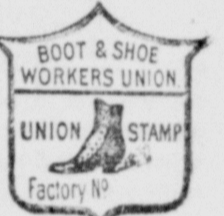

PATRONIZE UNION CLERKS.

UNION MADE BOOTS AND SHOES.

The Boot and Shoe Workers' union is the national head of the trade, and is a new combination of all the branches of boot and shoe workers. The above trade-mark when found on the sole or lining of a boot or shoe, is a guarantee that the same is made by union labor. Look for the above design stamped on the sole of every pair of boots or shoes you buy.

EPWORTH LEAGUE.

Topic For the Week Beginning Dec. 31, "The Heavenly Record"—Text. Luke 1, 20; Rev. III, 1-5.

"Rejoice because your names are written in heaven."

It is a common figure of speech in the Bible, that of record books in which the actions of men are written down and preserved by God and that from these documents the future destiny of each person shall be determined. Perhaps it refers to the custom in oriental lands of having a court historian or chronicler, who preserved in writing the notable events of the times and noted the names of those deserving special remembrance and reward because of eminent service given the king.

The idea is expanded in the book of Revelation and assumes a very poetical form with dramatic force. Malachi closes the Old Testament canon with a similar declaration of a book of remembrance in which God's chosen ones are recorded for reward.

The closing year emphasizes the thought of our past life record. What has it been? With all of us the message of the Spirit to the Lord's church should sound warning: "I have not found thy works perfect before God. Be watchful and strengthen the things which remain, that are ready to die. Hold fast and repent."

Warning and Promise.

"Tis greatly wise to talk with our past hours."

This is the time when men take account of stock and figure up gains and losses. He who never strikes a balance sheet may get a living, but can scarcely expect to make much success in business. Men need to reckon up at times and see how their investments are paying. If some ventures are failures, close them out. Beware of similar things in future. What pays well increase and take care of. We must be warned by the past. We need at this time to consider seriously what our course in life is yielding. What way does it shape and tend? "If thou shalt not watch, I will come on thee as a thief, and thou shalt not know what hour I will come on thee." That warning sounds as sternly as when spoken to the Sardinian people. It applies to us. Again, the promise is equally firm. "He that overcometh, the same shall be clothed in white raiment, and I will not blot out his name out of the book of life, but I will confess his name before My Father and before His angels." It will pay to overcome, but is folly to be overcome. We have been sufficiently warned. Let us take heed!

Bishop Gilbert Haven.

He was born in Malden, Mass., in 1821 and died in the old homestead in 1880. He came of good New England Methodist stock, was graduated from Wesleyan university and took a place in the church for which he was well fitted. His was a personality very unlike that of any other man of his time in many particulars. He saw visions of things to be and with great energy set about making them real. He was a reformer and so was feared by many of the timid who dreaded to have old forms disturbed. As he grew old men

BISHOP GILBERT HAVEN.

found him in practical matters soundly conservative of all that was good and safely progressive where advance was needed.

His memorable work was done as editor of Zion's Herald and as bishop in the colored work of the south. His death was hastened by African fever

contracted on his episcopal tour to Liberia. Whoever came close enough to him to form personal acquaintance found in him one of the most delightful and faithful of friends. He did much to quicken the church to a higher and broader as well as deeper and more intense life.

Personal Pledges.

There is much of helpfulness in pledges made to each other among young people. It is not a sign of weakness, but of strength, to join together in any good resolution. A young man awakens to the fact that cigarette smoking is useless, is wasteful, may be harmful and ought to be given up. He resolves to smoke no more. Shall he go alone? He can do so. He is strong enough, but he likes company. He feels interested that others shall see the truth as he sees it. He talks, argues, persuades and induces others to do as he does. They agree. They pledge to each other. This is no surrender of personal liberty, but is a strengthening bond and cement of friendship and promoter of genuine fellowship.

The League pledge is very valuable. We can well use these covenants in service more fully. Join together in service. Promise each other to be faithful in daily prayer, in testimony in the church meetings, to invite others to Jesus. Pledge and perform.

Tap, tap all day at the machine until the head throbs with every tap. And when the machine stops for the day the throbbing still goes on. More than any other class of women the large army of women clerks needs to closely watch the health of the organs peculiarly womanly. For the general health will be disturbed just in proportion as the local health of the delicate, womanly organs is disordered. With irregularities there will come pains in the head, the back or side, nausea and general misery. The happiness of the future life of the wife and mother may be entirely ruined by neglect of the health at this critical period.

Women confined in offices, shut out from necessary exercise will find a faithful friend in Dr. Pierce's Favorite Prescription. It so regulates the womanly functions and so strengthens the delicate organs that pain from these causes will be absolutely done away with and future health be perfectly assured.

There is no opium, cocaine or other narcotic in "Favorite Prescription." Neither does it contain alcohol, whisky or other intoxicant.

"I was so weak I did not have breath to walk across my room," writes Miss Isbell Miller, of New Providence, Calloway Co., Ky. "My periods occurred too often and the hemorrhage would be prolonged and the loss of blood very excessive. I also had spells which the doctor said were fainting fits. I could not tell when they were coming on but they left me very weak. My stomach would cramp until I could not straighten. This would last for several hours. I did not gain strength from one monthly period to another; was very weak and nervous all the time." I was advised by a kind friend to try Dr. Pierce's Favorite Prescription, which I did and before I had taken two bottles of it I could work all day. I took in all six bottles of the 'Favorite Prescription' and about five bottles of Dr. Pierce's Pellets. I used no other medicine. I have never had a return of this trouble since, and never can praise Dr. Pierce's medicines enough, for I know they saved my life."

A Grand Clearance Sale of Ladies' and Children's Wraps

Will commence in our Cloak Room, and continue until the last wrap is sold. Before entering into details regarding the big inducements this sale will offer to prospective buyers of wraps, we wish to emphasize the fact that every garment in the room is this season's production, not one garment carried over from last season, and we propose that none shall be carried over from this season until next. When you remember there is yet three long months of cold winter weather ahead of you in which to wear a winter wrap this season, and add to that fact another fact equally important, viz: That on every garment bought during this sale from \$3 to \$10 is saved to the purchaser--according to the quality of garment bought--the wisdom of such a purchase is very apparent. We have gone carefully through our entire stock of Ladies' Jackets, divided them into four lots and offer them as follows:

- LOT 1. Choice of every \$15, \$18 and \$20 Ladies' Jacket in stock for \$10 each.
- LOT 2. Choice of every \$10, \$12 and \$12.50 Ladies' Jacket in stock for \$7.50 each.
- LOT 3. Choice of every \$7.50, \$7.98 and \$9 Ladies' Jacket in stock for \$5 each.
- LOT 4. Choice of every \$5.98 and \$6.98 Ladies' Jacket in stock for \$3.50 each.

Thus you will see you are offered our entire stock of Ladies' Jackets, nothing reserved, at from \$3.50 to \$10 a garment, as against from \$5.98 to \$20 a garment. That is a big reduction and means a loss to us, but according to our mode of doing business they must be sold, let the loss be great or small. Good assortments to select from in sizes 32, 34, 36, 38, 40 and 42. Colors--black, castor, brown, tan and navy.
